Subject index*

A

Aberration, chromosome, in ectopia cordis (46,XX,17q+) (Say and Wilsey), 274 (Letter to Editor)
Abnormal P-terminal force in Lead V_1, on the significance of an (Chandraratna and Langevin), 267 (Annot.)
Abstinence, echocardiography in chronic alcoholics following prolonged periods of (Reeves, Nanda, and Gramiak), 578
Abuse, analgesic, and microvascular changes (Abrahams, Furman, and Salant), 268 (Annot.)
According to his desert, to each (Scherf and Cohen), 536 (Annot.)
Acetylcholine, intrapulmonary, in bilharzial cor pulmonale (Abdel-Fattah et al.), 141
Activation, left atrial, indirect recording of in the main pulmonary trunk (Puech), 412 (Letter to Editor)
Reply (Amat-y-Leon and Rosen), 413
Acute myocardial infarction caused by hyperkalemia, electrocardiographic changes simulating: report of a patient with normal coronary arteriograms (Chawla et al.), 637
changes in components of kinin system and hemodynamics in (Hashimoto et al.), 619
management of shock following. Part I. Drug therapy (Kuhn), 529
significance of nausea and vomiting during (Ahmed, Gupta, and Brancato), 671 (Annot.)
Adrenergic beta-receptors, cardiac, human pharmacology studies with a new, orally active stimulant of (Knaus et al.), 602
Afterload, ventricular: a succinct yet comprehensive definition (Noordergraaf and Melbin), 545
Age and sex, sudden deaths from IHD by (Hodes), 413 (Letter to Editor)
Aggregation, cell, during coronary artery bypass procedures, the problem of (Ecanow and Gold), 535 (Annot.)
Alcohol-associated cardiac rhythm disorders: arrhythmias and the "Holiday Heart" (Ettinger et al.), 555
Alcoholics, chronic, echocardiography in following prolonged periods of abstinence (Reeves, Nanda, and Gramiak). 578
Alternans, isolated T wave (Navarro-Lopez et al.), 369
Amplitude of the first heart sound, effects of exercise on the in normal subjects (Hume and Reuben), 4
Analgesic abuse and microvascular changes (Abrahams, Furman, and Salant), 268 (Annot.)
Anatomically united to form one heart, of why the two heart pumps are (Burch), 811 (Annot.)
Anesthesia, pentobarbital, on ventricular defibrillation threshold in dogs, effect of (Babbs), 331
Angina pectoris, abrupt propranolol withdrawal in: effects on platelet aggregation and exercise tolerance (Frishman et al.), 169
myocardial infarction and sudden cardiac death with normal coronary arteries: a clinicopathologic study of 9 patients with progressive systemic sclerosis (Bulkley, Klacsmann, and Hutchins), 563
stable, contemporary medical management of (Sostman and Langou), 775
preinfarction, relationship between myocardial infarction and. A histopathological study of coronary arteries in two sudden death cases employing serial section (Horie, Sekiguchi and Hirosawa), 81
Announcements, 138, 278, 416, 544, 678, 816
Anomaly, Ebstein's, clinical classification of (Takayasu, Obunai, and Konno), 154
Antegrade and retrograde conduction characteristics in 3 patterns of paroxysmal atrioventricular junctional reentrant tachycardia (Akhtar et al.), 22
Anterior hemiblock, left, overdiagnosis of (Neurath), 675 (Letter to Editor)
Antibody response, a unique, associated with the development of membranous nephropathy in systemic lupus erythematosus (Friend), 672 (Annot.)
Antihypertensive effect of thiazide diuretics, mechanism of (Shah, Khatri, and Freis), 611
Aortic ball valve prostheses, arterial thromboembolic complications with (Boekhout-Mussert et al.), 270 (Letter to Editor)
Reply (Dale), 271
regurgitation, lone, aortic valve prostheses, rheumatic fever, and (Kloth), 275 (Letter to Editor)
valve disease, cardiac reserve during isoproterenol stress in patients with before and after corrective surgery (Schwarz et al), 146
echocardiograms, fine flutterings of the aortic valve as demonstrated by (Pinto et al.), 807 (Annot.)
fine flutterings of as demonstrated by aortic valve echocardiograms (Pinto et al.), 807 (Annot.)
prostheses, rheumatic fever, and lone aortic regurgitation (Kloth), 275 (Letter to Editor)
replacement, influence of etiology on the functional result of (Hossack and Neilson), 454
valvular area and gradient, prediction of by noninvasive techniques (Cousins, Eddleman, and Reeves), 308
Aorto-arteritis, non-specific, in Singapore with special reference to hypertension (Teoh et al.), 683
Appropriate therapy of hypertension in "the elderly" (Barlow), 809 (Annot.)
Arrest, ischemic, myocardial edema, a complication of during cardiopulmonary bypass (Engelman), 128 (Annot.)
Arrhythmias and the "Holiday Heart": Alcohol-associated cardiac rhythm disorders (Ettinger et al.), 555
Arterial pressure, the variability of (Littler et al.), 180
thromboembolic complications with aortic ball valve prostheses (Boekhout-Mussert et al.), 270 (Letter to Editor)
Reply (Dale), 271
Arteriograms, coronary, comparison of with direct measurements of stenosed coronary arteries in dogs (Gallagher, Folts, and Rowe), 338
normal, report of a patient with: electrocardiographic changes simulating acute myocardial infarction caused by hyperkalemia (Chawla et al.), 637
Arteriographic findings, coronary, of myocardial infarction in the Black population of South Africa (Chesler et al.), 691
Arteriovenous fistulas, hepatic, and hereditary telangiectasia (Osler-Weber-Rendu disease), misdiagnosis of atrial septal defect in patients with (Radtke et al.), 235
malformation, congenital, systemic hypertension after surgical treatment of a (Rocchini et al.), 497
Artery(ies) bypass failure, coronary, saphenous vein: acute postoperative graft phlebitis, a rare cause of (Bulkley and Hutchins), 757
procedures, coronary, the problem of cell aggregation during (Ecanow and Gold), 535 (Annot.)
coronary, normal, angina pectoris, myocardial infarction and sudden cardiac death with: a clinicopathologic study of 9 patients with progressive systemic sclerosis (Bulkley, Klacsmann, and Hutchins), 563
disease, coronary, "silent" myocardial ischemia during and after exercise testing in patients with (Lindsey and Cohn), 441
ventricular function and coronary hemodynamics after intravenous nitroglycerin in (Strauer and Scherpe), 210
spasm, coronary, and mitral valve prolapse (Buda et al.), 457

*January, pp. 1-138; February, pp. 139-278; March, pp. 279-416; April, pp. 417-544; May, pp. 545-678; June, pp. 679-836.

Artery(ies)—continued
stenosed coronary, in dogs, comparison of coronary arteriograms with direct measurements of (Gallagher, Folts, and Rowe), 338
Artificial heart valve replacement, cholelithiasis, a frequent complication of (Harrison et al.), 483
pacemakers, failing, influence of atrial activity on ventricular capture by I. Report of two new cases and review of the literature (Abernathy and Lepeschkin), 502
of atrial systole on ventricular capture by II. Experimental observations (Abernathy, Ferrier, and Moe), 489
At home or to hospital? (Donaldson), 406 (Annot.)
Atresia, tricuspid, simulated tricuspid valve echoes in (Silverman, Payot, and Stanger), 761
Atrial activation, left, indirect recording of in the main pulmonary trunk (Puech), 412 (Letter to Editor)
Reply (Amat-y-Leon and Rosen), 413
activity on ventricular capture by failing artificial pacemakers, influence of I. Report of two new cases and review of the literature (Abernathy and Lepeschkin), 502
fibrillation and atrial flutter, lidocaine-induced cardiac rate changes in (Danahy and Aronow), 474
flutter and atrial fibrillation, lidocaine-induced cardiac rate changes in (Danahy and Aronow), 474
septal defect, misdiagnosis of, in patients with hereditary telangiectasia (Osler-Weber-Rendu disease) and hepatic arteriovenous fistulas (Radtke et al.), 235
stimulation, post-extrasystolic potentiation of ischemic myocardium by (Diamond et al.), 204
systole on ventricular capture by failing artificial pacemakers, influence of II. Experimental observations (Abernathy, Ferrier, and Moe), 489
Atrioventricular junctional reentrant tachycardia, paroxysmal, antegrade and retrograde conduction characteristics in 3 patterns of (Akhtar et al.), 22
nodal, distal, and His-Purkinje, block, effects of proximal intra-atrial Wenckebach on. With special reference to the theory of alternating Wenckebach periods (Castellanos et al.), 228
Autonomic maneuvers in hereditary Q-T interval prolongation (Romano-Ward syndrome) (Curtiss, Heibel, and Shaver), 420
Autopsy, "salvage the pacemaker" at (Rossi), 540 (Letter to Editor)

B

Bacterial endocarditis: an analysis of factors affecting long-term survival (McNeill, Strong, and Lockwood), 448
Ball valve prostheses, aortic, arterial thromboembolic complications with (Boekhout-Mussert et al.), 270 (Letter to Editor)
Reply (Dale), 271
Bands, contraction, in endomyocardial biopsies from normal human hearts, incidence and significance of (Adomian, Laks, and Billingham), 348
Beta-receptors, cardiac adrenergic, human pharmacology studies with a new, orally active stimulant of (Knaus et al.), 602
Bilharzial cor pulmonale, intrapulmonary acetylcholine in (Abdel-Fattah et al.), 141
Biochemical, clinical, and pathological features of low-renin ("primary") hyperaldosteronism (Ferriss et al.), 375
Biopsies, endomyocardial, from normal human hearts, incidence and significance of contraction bands in (Adomian, Laks, and Billingham), 348
Black population of South Africa, myocardial infarction in the: coronary arteriographic findings (Chesler et al.), 691
schoolchildren with non-ejection systolic clicks and mitral systolic murmurs, four year follow-up of (Cohen et al.), 697
Blanket, electric, electromagnetic interference in dynamic electrocardiography caused by an (Gascho and Newton), 408 (Annot.)
Block, heart, excitation—contraction abnormalities and (Istanbullu and Veldet), 275 (Letter to Editor)
His-Purkinje, and distal atrioventricular nodal, effects of proximal intra-atrial Wenckebach on. With special reference to the theory of alternating Wenckebach periods (Castellanos et al.), 228
Blood donors and coronary disease (Seely), 675 (Letter to Editor) (Reply to Goodyear, p. 675)
Book reviews, 136, 277, 414, 543, 677, 815
Books received, 137, 278, 415, 544, 678, 816
Branch system defect, bundle, hereditary. Survey of a family with four affected generations (Stephan), 89
BSR, WBC, and CRP following cardiac pacemaker implant, increase of (Yokoyama), 671 (Annot.)
Bundle branch system defect, hereditary. Survey of a family with four affected generations (Stephan), 89
Bypass, cardiopulmonary, myocardial edema, a complication of ischemic arrest during (Engelman), 128 (Annot.)
failure, coronary artery, saphenous vein: acute postoperative graft phlebitis, a rare cause of (Bulkley and Hutchins), 757
grafting, significance of new Q waves after: correlations between graft patency, ventriculogram, and surgical venting (Aintablian et al.), 429
procedures, coronary artery, the problem of cell aggregation during (Ecanow and Gold), 535 (Annot.)

C

Cachectic patients, cardiac abnormalities in before and during nutritional repletion (Heymsfield et al.), 584
Capture, ventricular, by failing artificial pacemakers, influence of atrial activity on I. Report of two new cases and review of the literature (Abernathy and Lepeschkin), 502
of atrial systole on II. Experimental observations (Abernathy, Ferrier, and Moe), 489
Carbon monoxide and ventricular fibrillation threshold in dogs with acute myocardial injury (Aronow et al.), 754
Cardiac abnormalities in cachectic patients before and during nutritional repletion (Heymsfield et al.), 584
adrenergic beta-receptors, human pharmacology studies with a new, orally active stimulant of (Knaus et al.), 602
changes in Duchenne muscular dystrophy, sequence of (Heymsfield et al.), 283
conduction system, involvement of the in panarteritis nodosa (Thiene, Valente, and Rossi), 716
death, sudden, angina pectoris, and myocardial infarction with normal coronary arteries: a clinicopathologic study of 9 patients with progressive systemic sclerosis (Bulkley, Klacsmann, and Hutchins), 563
denervation, effect of chronic on infarct size following acute coronary occlusion (Jones et al.), 738
pacemaker implant, increase of WBC, CRP and BSR following (Yokoyama), 671 (Annot.)
pacing and pacemakers IX. Statistical analysis of pacemaker data (Furman and Whitman), 115
rate changes in atrial fibrillation and atrial flutter, lidocaine-induced (Danahy and Aronow), 474
reserve during isoproterenol stress in patients with aortic valve disease before and after corrective surgery (Schwarz et al.), 146
rhythm, definition of terms related to (WHO/ISC Task Force—*see also* de Medina et al.), 796 (Special report)
disorders, alcohol-associated: arrhythmias and the "Holiday Heart" (Ettinger et al.), 555
surgery, measurement of the circulatory effects of dobutamine, a new inotropic agent, in patients following (Lewis et al.), 301
Cardiology, international (Goodwin), 279

Cardiomyopathy, hypertrophic, a discussion on (Clinical pathologic conference) (Spray et al.), 511
Cardiopulmonary bypass, myocardial edema, a complication of ischemic arrest during (Engelman), 128 (Annot.)
Care Unit, Coronary, diet in the (Warren, Alpert, and Francis), 130 (Annot.)
differences in (O'Rourke), 270 (Letter to Editor)
Catecholamines, plasma, in hypertensive patients, effect of saralasin upon (Vlachakis, Ribeiro, and Krakoff), 78
Catheter, pacemaker, fibrin deposition on in a heparinized patient (MacMillan and Strate), 405 (Annot.)
CCU (coronary care unit), more on effectiveness of the (Fazzini, Marchi, and Pucci), 813 (Letter to Editor)
Cell aggregation during coronary artery bypass procedures, the problem of (Ecanow and Gold), 535 (Annot.)
Central nervous system in chronic congestive heart failure, the role of the (Burch), 255
Cerebrospinal fluid pressure, elevated, components of the hemodynamic response to (Brashear and Yu), 52
Chagas' myocarditis, histopathology of the conducting tissue of the heart in (Andrade et al.), 316
CHD, statistics, and marathoning (Milvy), 538 (Annot.)
Chlamydia trachomatis endocarditis (van der Bel-Kahn et al.), 627
Cholelithiasis: a frequent complication of artificial heart valve replacement (Harrison et al.), 483
Chromosome aberration in ectopia cordis (46,XX,17q+) (Say and Wilsey), 274 (Letter to Editor)
Chronic alcoholics, echocardiography in following prolonged periods of abstinence (Reeves, Nanda, and Gramiak), 578
congestive heart failure, role of the central nervous system in (Burch), 255
Circulatory assistance, mechanical. Management of shock following acute myocardial infarction. Part II (Kuhn), 789
effects of dobutamine, a new inotropic agent, in patients following cardiac surgery, measurement of the (Lewis et al.), 301
Classification, clinical, of Ebstein's anomaly (Takayasu, Obunai, and Konno), 154
Clinical, biochemical and pathological features of low-renin ("primary") hyperaldosteronism (Ferriss et al.), 375
classification of Ebstein's anomaly (Takayasu, Obunai, and Konno), 154
entity—polymicrobial infective endocarditis, an increasing (Saravolatz et al.), 163
medicine, of plastic materials in (Burch), 127 (Annot.)
pathologic conference (Spodick et al.), 247
(Spray et al.), 511 A discussion of hypertrophic cardiomyopathy
(Nemickas et al.), 766 Massive myocardial necrosis in a young woman.
Collateral(s), coronary, effect of on left ventricular function at rest and during stress (Schwarz et al.), 570
functional value of in myocardial ischemia and therapeutic approach to enhance collateral flow (Cohen), 396
flow, functional value of coronary collaterals in myocardial ischemia and therapeutic approach to enhance (Cohen), 396
Comeback of hydralazine, the (Koch-Weser), 1
Commissurotomy, mitral, early open, a plea for (Spencer), 668
Complex, the hypertension (Mendlowitz), 389
Compliance, total effective, of the vascular bed in essential hypertension (London et al.), 325
Complication(s), arterial thromboembolic, with aortic ball valve prostheses (Boekhout-Mussert et al.), 270 (Letter to Editor)
Reply (Dale), 271
of artificial heart valve replacement, cholelithiasis, a frequent (Harrison et al.), 483
Computerized electrocardiography (Pordy), 135 (Letter to Editor)
Concealed trigeminy, mechanism of (Kinoshita), 410 (Letter to Editor)
Reply (Levy), 411
Conducting tissue of the heart in Chagas' myocarditis, histopathology of the (Andrade et al.), 316
Conduction aspects of hypokalemia, prominent electrocardiographic, in a patient with periodic paralysis (Johnson and Catinchi), 359
characteristics, antegrade and retrograde, in 3 patterns of paroxysmal atrioventricular junctional reentrant tachycardia (Akhtar et al.), 22
system, cardiac, involvement of the in panarteritis nodosa (Thiene, Valente, and Rossi), 716
ventricular, functional properties of the left septal Purkinje network in premature activation of the (Iwamura et al.), 60
specialized, differential refractoriness of (Tenczer and Littmann), 270 (Letter to Editor)
Conference, clinical pathologic (Spodick et al.), 247
(Spray et al.), 511 A discussion on hypertrophic cardiomyopathy
(Nemickas et al.), 766 Massive myocardial necrosis in a young woman
Congenital arteriovenous malformation, systemic hypertension after surgical treatment of a (Rocchini et al.), 497
ichthyosis, Wolff-Parkinson-White (Type B), and Ebstein's anomaly (Weiss), 133 (Letter to Editor)
Congestive heart failure, chronic, role of the central nervous system in (Burch), 255
Contemporary medical management of stable angina pectoris (Sostman and Langou), 775
Contraction bands in endomyocardial biopsies from normal human hearts, incidence and significance of (Adomian, Laks, and Billingham), 348
-excitation abnormalities and heart block (Istanbullu and Veldet), 275 (Letter to Editor)
Cor pulmonale, bilharzial, intrapulmonary acetylcholine in (Abdel-Fattah et al.), 141
Cordis, ectopia (46,XX,17q+), chromosome aberration in (Say and Wilsey), 274 (Letter to Editor)
Coronary arteriograms, comparison of with direct measurements of stenosed coronary arteries in dogs (Gallagher, Folts, and Rowe), 338
normal, report of a patient with: electrocardiographic changes simulating acute myocardial infarction caused by hyperkalemia (Chawla et al.), 637
arteriographic findings of myocardial infarction in the Black population of South Africa (Chesler et al.), 691
artery(ies) bypass failure, saphenous vein: acute postoperative graft phlebitis, a rare cause of (Bulkley and Hutchins), 757
procedures, the problem of cell aggregation during (Ecanow and Gold), 535 (Annot.)
disease, "silent" myocardial ischemia during and after exercise testing in patients with (Lindsey and Cohn), 441
ventricular function and coronary hemodynamics after intravenous nitroglycerin in (Strauer and Scherpe), 210
histopathological study of employing serial section. Relationship between myocardial infarction and preinfarction angina (Horie, Sekiguchi, and Hirosawa), 81
normal, angina pectoris, myocardial infarction and sudden cardiac death with: a clinicopathologic study of 9 patients with progressive systemic sclerosis (Bulkley, Klacsmann, and Hutchins), 563
single, with myocardial infarction and mitral regurgitation (Newton and Burwell), 126 (Annot.)
spasm and mitral valve prolapse (Buda et al.), 457
stenosed, in dogs, comparison of coronary arteriograms with direct measurements of (Gallagher, Folts, and Rowe), 338

Coronary—continued
care unit(s) (CCU), more on effectiveness of the (Fazzini, Marchi, and Pucci), 813 Letter to Editor)
diet in the (Warren, Alpert, and Francis), 130 (Annot.)
differences in (O'Rourke), 270 (Letter to Editor)
collaterals, effect of on left ventricular function at rest and during stress (Schwarz et al.), 570
functional value of in myocardial ischemia and therapeutic approach to enhance collateral flow (Cohen), 396
disease, blood donors and (Seely), 675 (Letter to Editor) (Reply to Goodyear, p. 675)
hemodynamics and ventricular function after intravenous nitroglycerin in coronary artery disease (Strauer and Scherpe), 210
occlusion, acute, effect of chronic cardiac denervation on infarct size following (Jones et al.), 738
Creatine kinase isoenzymes in the assessment of h art disease (Roberts and Sobel), 521
phosphokinase MB isoenzyme in hypothermia: case reports and experimental studies (Carlson, Emilson, and Rapaport), 352
CRP, WBC, and BSR following cardiac pacemaker implant, increase of (Yokoyama), 671 (Annot.)
Curricula, high school health, more on (LaForge), 272 (Letter to Editor)

D

Death(s) from venous thromboembolism be prevented in elderly patients with hip fractures, can? (Morris and Mitchell), 139
sudden cardiac, angina pectoris, and myocardial infarction with normal coronary arteries: a clinicopathologic study of 9 patients with progressive systemic sclerosis (Bulkley, Klacsmann, and Hutchins), 563
from IHD by age and sex (Hodes), 413 (Letter to Editor)
Defibrillation threshold, ventricular, in dogs, effect of pentobarbital anesthesia on (Babbs), 331
Definition of terms related to cardiac rhythm (WHO/ISC Task Force—*see also* de Medina et al.), 796 (Special report)
Denervation, cardiac, effect of chronic on infarct size following acute coronary occlusion (Jones et al.), 738
Deposition, fibrin, on a pacemaker catheter in a heparinized patient (MacMillan and Strate), 405 (Annot.)
Desert, to each according to his (Scherf and Cohen), 536 (Annot.)
Diaphragm pacing (electrophrenic respiration), hemodynamic response to—Ondine's curse (Langou et al.), 295
Diastolic and systolic pressure and left ventricular work, of (Burch), 406 (Annot.)
Diet in the Coronary Care Unit (Warren, Alpert, and Francis), 130 (Annot.)
Difference(s) in Coronary Care Units (O'Rourke), 270 (Letter to Editor)
vector, the: assessment of effects of changes or interventions (Nelson et al.), 220
Differential refractoriness of ventricular specialized conduction system (Tenczer and Littmann), 270 (Letter to Editor)
Direct measurements of stenosed coronary arteries in dogs, comparison of coronary arteriograms with (Gallagher, Folts, and Rowe), 338
Discussion on hypertrophic cardiomyopathy, a (Clinical pathologic conference) (Spray et al.), 511
Disease, heart, menstruation and (Goodyear), 675 (Letter to Editor)
Reply (Blood donors and coronary disease), (Seely), 675
Diuretics, thiazide, mechanism of antihypertensive effect of (Shah, Khatri, and Freis), 611
Dobutamine, a new inotropic agent, in patients following cardiac surgery, measurement of the circulatory effects of (Lewis et al.), 301
Dog's tails—references? (Kennedy), 274 (Letter to Editor)
Donors, blood, and coronary disease (Seely), 675 (Letter to Editor) (Reply to Goodyear, p. 675)
Drug therapy. Management of shock following acute myocardial infarction. I (Kuhn), 529
Duchenne muscular dystrophy, sequence of cardiac changes in (Heymsfield et al.), 283
Dynamic electrocardiography, electromagnetic interference in caused by an electric blanket (Gascho and Newton), 408 (Annot.)
Dysfunction, left ventricular, MLAP, LVEDP, and (Haddad and Prokhov), 814 (Letter to Editor)
Reply (Kouchoukos and Karp), 814
thyroid, the systolic time intervals in (Burckhardt et al.), 187
Dystrophy, Duchenne muscular, sequence of cardiac changes in (Heymsfield et al.), 283

E

Early, open mitral commissurotomy, a plea for (Spencer), 668
Ebstein's anomaly, clinical classification of (Takayasu, Obunai, and Konno), 154
Wolff-Parkinson-White (Type B), and congenital ichthyosis (Weiss), 133 (Letter to Editor)
Echocardiograms, aortic valve, fine flutterings of the aortic valve as demonstrated by (Pinto et al.), 807 (Annot.)
Echocardiographic features of the normal and malfunctioning porcine xenograft valve (Chandraratna and San Pedro), 548
Echocardiography in chronic alcoholics following prolonged periods of abstinence (Reeves, Nanda, and Gramiak), 578
Ectopia cordis (46,XX,17q+), chromosome aberration in (Say and Wilsey), 274 (Letter to Editor)
Edema, leg, and nitroglycerin ointment therapy (Lee), 273 (Letter to Editor)
myocardial, a complication of ischemic arrest during cardiopulmonary bypass (Engelman), 128 (Annot.)
Effectiveness of the CCU (coronary care unit), more on (Fazzini, Marchi, and Pucci), 813 (Letter to Editor)
Elderly patients with hip fractures, can death from venous thromboembolism be prevented in ? (Morris and Mitchell), 139
the, appropriate therapy of hypertension in (Barlow), 809 (Annot.)
Electric blanket, electromagnetic interference in dynamic electrocardiography caused by an (Gascho and Newton, 408 (Annot.)
Electrocardiogram(s), exercise, and treadmill exercise testing, concepts and applications of (Faris, McHenry, and Morris), 102
Frank lead, electrode position effects on (Berson, Haisty, and Pipberger), 463
orthogonal, in normal women. Implications of sex differences in diagnostic electrocardiography (Nemati et al.), 12
significance of a terminal R wave in Lead V_1 of the (Raunio et al.), 702
Electrocardiographic changes simulating acute myocardial infarction caused by hyperkalemia: report of a patient with normal coronary arteriograms (Chawla et al.), 637
conduction aspects of hypokalemia, prominent, in a patient with periodic paralysis (Johnson and Catinchi), 359
Electrocardiography, computerized (Pordy), 135 (Letter to Editor)
diagnostic, sex differences in, implications of. Orthogonal electrocardiogram in normal women (Nemati et al.), 12
dynamic, electromagnetic interference in caused by an electric blanket (Gascho and Newton), 408 (Annot.)

Electrode position effects on Frank lead electrocardiograms (Berson, Haisty, and Pipberger), 463
Electromagnetic interference in dynamic electrocardiography caused by an electric blanket (Gascho and Newton), 408 (Annot.)
Electrophrenic respiration (diaphragm pacing), hemodynamic response to—Ondine's curse (Langou et al.), 295
Electrophysiologic findings and clinical course in symptomatic sinus node dysfunction, vagal tone, significance of (Thormann et al.), 725
Embolism, pulmonary, fatal, inferior vena caval interruption in the prevention of (Gardner), 679
Emergency room screening test for acute myocardial infarction, usefulness and limitations of detection of myoglobin by radioimmunoassay in human sera as an (Gilkeson et al.), 70
Endocarditis, bacterial: an analysis of factors affecting long-term survival (McNeill, Strong, and Lockwood), 448
Chlamydia trachomatis (van der Bel-Kahn et al.), 627
polymicrobial infective:an increasing clinical entity (Saravolatz et al.), 163
Endomyocardial biopsies from normal human hearts, incidence and significance of contraction bands in (Adomian, Laks, and Billingham), 348
Epidemiology, importance of, "Rheumatic" heart disease, psittacosis and the (Ward), 266 (Annot.)
Erythematosus, lupus, systemic, a unique antibody response associated with the development of menbranous nephropathy in (Friend), 672 (Annot.)
Essential hypertension, total effective compliance of the vascular bed in (London et al.), 325
Etiology, influence of on the functional result of aortic valve replacement (Hossack and Neilson), 454
Excitation-contraction abnormalities and heart block (Istanbullu and Veldet), 275 (Letter to Editor)
Exercise electrocardiogram and treadmill exercise testing, concepts and applications of (Faris, McHenry, and Morris), 102
on the amplitude of the first heart sound in normal subjects, effects of (Hume and Reuben), 4
testing, "silent" myocardial ischemia during and after in patients with coronary artery disease (Lindsey and Cohen), 441
treadmill, and the exercise electrocardiogram, concepts and applications of (Faris, McHenry, and Morris), 102
significance of hypotension developing during (Levites, Baker, and Anderson), 747
tolerance and platelet aggregation, effects on after abrupt propranolol withdrawal in angina pectoris (Frishman et al.), 169

F

Failing artificial pacemakers, influence of atrial activity on ventricular capture by I. Report of two new cases and review of the literature (Abernathy and Lepeschkin), 502
of atrial systole on ventricular capture by II. Experimental observations (Abernathy, Ferrier, and Moe), 489
Failure, heart, chronic congestive, role of the central nervous system in (Burch), 255
F.D.A. for surgery, needed, an? (Schoenfeld), 540 (Letter to Editor)
Fibrillation, atrial, and atrial flutter, lidocaine-induced cardiac rate changes in (Danahy and Aronow), 474
threshold, ventricular, and carbon monoxide in dogs with acute myocardial injury (Aronow et al.), 754
effect of vagus nerve stimulation on (Kolman, Verrier, and Lown), 132 (Letter to Editor)
Reply (Han and Yoon), 132
ventricular (VF), in the conscious dog, effects of psychological stress and vagal stimulation with morphine on vulnerability to (DeSilva, Verrier, and Lown), 197
Fibrin deposition on a pacemaker catheter in a heparinized patient (MacMillan and Strate), 405 (Annot.)
Fibrinolysis, natural (Browse), 417
Fine flutterings of the aortic valve as demonstrated by aortic valve echocardiograms (Pinto et al.), 807 (Annot.)
First heart sound, effects of exercise on the amplitude of the in normal subjects (Hume and Reuben), 4
Fistulas, hepatic arteriovenous, and hereditary telangiectasia (Osler-Weber-Rendu disease), misdiagnosis of atrial septal defect in patients with (Radtke et al.), 235
Flow, collateral, functional value of coronary collaterals in myocardial ischemia and therapeutic approach to enhance (Cohen), 396
Fluid pressure, elevated cerebrospinal, components of the hemodynamic response to (Brashear and Yu), 52
Flutter, atrial, and atrial fibrillation, lidocaine-induced cardiac rate changes in (Danahy and Aronow), 474
Force, abnormal P-terminal in Lead V_1, on the significance of an (Chandraratna and Langevin), 267 (Annot.)
(46,XX,17q+) ectopia cordis, chromosome aberration in (Say and Wilsey), 274 (Letter to Editor)
Frank lead electrocardiograms, electrode position effects on (Berson, Haisty, and Pipberger), 463
Fructose and triglycerides (Halpern), 540 (Letter to Editor)
Furosemide, reactions to (Warren and Steinberg), 541 (Letter to Editor)
Reply (Greenblatt), 542

G

Generations, four affected, in a family with hereditary bundle branch system defect (Stephan), 89
Gradient, aortic, and aortic valvular area, prediction of by noninvasive techniques (Cousins, Eddleman, and Reeves), 308
Graft patency, ventriculogram, and surgical venting, correlations between: significance of new Q waves after bypass grafting (Aintablian et al.), 429
phlebitis, acute postoperative: a rare cause of saphenous vein—coronary artery bypass failure (Bulkley and Hutchins), 757
Grafting, bypass, significance of new Q waves after: correlations between graft patency, ventriculogram, and surgical venting (Aintablian et al.), 429

H

Health curricula, high school, more on (LaForge), 272 (Letter to Editor)
Heart(s) block, excitation—contraction abnormalities and (Istanbullu and Veldet), 275 (Letter to Editor)
conducting tissue of the in Chagas' myocarditis, histopathology of the (Andrade et al.), 316
disease, creatine kinase isoenzymes in the assessment of (Roberts and Sobel), 521
ischemic, differences in metal content of the heart muscle in death from (Chipperfield and Chipperfield), 732
menstruation and (Goodyear), 675 (Letter to Editor)
Reply (Blood donors and coronary disease), (Seely), 675
"rheumatic," psittacosis and the importance of epidemiology (Ward), 266 (Annot.)
failure, chronic congestive, role of the central nervous system in (Burch), 255
Holiday, and arrhythmias: alcohol-associated cardiac rhythm disorders (Ettinger et al.), 555
muscle, differences in metal content of in death from ischemic heart disease (Chipperfield and Chipperfield), 732
normal human, incidence and significance of contraction bands in endomyocardial biopsies from (Adomian, Laks, and Billingham), 348

Heart(s)—continued
one, of why the two heart pumps are anatomically united to form (Burch), 811 (Annot.)
pumps, two, of why the are anatomically united to form one heart (Burch), 811 (Annot.)
rat, an experimental study in the isolated showing a possible role of noradrenaline in the development of myocardial infarction (Waldenström, Hjalmarson, and Thornell), 43
rate response to the Valsalva maneuver, evaluation of the (Kalbfleisch, Stowe, and Smith), 707
sound in normal subjects, first, effects of exercise on the amplitude of (Hume and Reuben), 4
valve replacement, artificial, cholelithiasis, a frequent complication of (Harrison et al.), 483
Hemiblock, left anterior, overdiagnosis of (Neurath), 675 (Letter to Editor)
Hemodynamic(s) and kinin system in acute myocardial infarction, changes in components of (Hashimoto et al.), 619
coronary, and ventricular function anfter intravenous nitroglycerin in coronary artery disease (Strauer and Scherpe), 210
evaluation of the Ionescu-Shiley pericardial xenograft in the mitral position (Tandon, Smith, and Ionescu), 595
response to diaphragm pacing (electrophrenic respiration)—Ondine's curse (Langou et al.), 295
to elevated cerebrospinal fluid pressure, components of the (Brashear and Yu), 52
Heparinized patient, fibrin deposition on a pacemaker catheter in a (MacMillan and Strate), 405 (Annot.)
Hepatic arteriovenous fistulas and hereditary telangiectasia (Osler-Weber-Rendu disease), misdiagnosis of atrial septal defect in patients with (Radtke et al.), 235
Hereditary bundle branch system defect. Survey of a family with four affected generations (Stephan), 89
Q-T interval prolongation (Romano-Ward syndrome), autonomic maneuvers in (Curtiss, Heibel, and Shaver), 420
telangiectasia (Osler-Weber-Rendu disease) and hepatic arteriovenous fistulas, misdiagnosis of atrial septal defect in patients with (Radtke et al.), 235
High school health curricula, more on (LaForge), 272 (Letter to Editor)
Hip fractures, can death from venous thromboembolism be prevented in elderly patients with? (Morris and Mitchell), 139
His-Purkinje and distal atrioventricular nodal block, effects of proximal intra-atrial Wenckebach on. With special reference to the theory of alternating Wenckebach periods (Castellanos et al.), 228
Histopathology of the conducting tissue of the heart in Chagas' myocarditis (Andrade et al.), 316
"Holiday Heart" and arrhythmias: Alcohol-associated cardiac rhythm disorders (Ettinger et al.), 555
Home or to hospital, at? (Donaldson), 406 (Annot.)
Hospital, at home or to? (Donaldson), 406 (Annot.)
Hydralazine, the comeback of (Koch-Wester), 1
Hygiene, of teaching (Burch), 535 (Annot.)
Hyperaldosteronism, low-renin ("primary"), clinical, biochemical and pathological features of (Ferriss et al.), 375
Differential diagnosis and distinction of subgroups within the syndrome (Ferriss et al.), 641
Hyperkalemia, electrocardiographic changes simulating acute myocardial infarction caused by: report of a patient with normal coronary arteriograms (Chawla et al.), 637
Hypertension, appropriate therapy of in "the elderly" (Barlow), 809 (Annot.)
complex, the (Mendlowitz), 389
essential, total effective compliance of the vascular bed in (London et al.), 325
non-specific aorto-arteritis in Singapore with special reference to (Teoh et al.), 683
Hypertension—continued
systemic, after surgical treatment of a congential arteriovenous malformation (Rocchini et al.), 497
Hypertensive patients, effect of saralasin upon plasma catecholamines in (Vlachakis, Ribeiro, and Krakoff), 78
Hypertrophic cardiomyopathy, a discussion on (Clinical pathologic conference), (Spray et al.), 511
Hypokalemia, prominent electrocardiographic conduction aspects of, in a patient with periodic paralysis (Johnson and Catinchi), 359
Hypotension developing during treadmill exercise testing, significance of (Levites, Baker, and Anderson), 747
Hypothermia, creatine phosphokinase MB isoenzyme in: case reports and experimental studies (Carlson, Emilson, and Rapaport), 352

I

Ichthyosis, congenital, Wolff-Parkinson-White (Type B), and Ebstein's anomaly (Weiss), 133 (Letter to Editor)
IHD, sudden deaths from by age and sex (Hodes), 413 (Letter to Editor)
Implant, cardiac pacemaker, increase of WBC, CRP and BSR following (Yokoyama), 671 (Annot.)
Infarct size following acute coronary occlusion, effect of chronic cardiac denervation on (Jones et al.), 738
Infarction, acute myocardial, caused by hyperkalemia, electrocardiographic changes simulating: report of a patient with normal coronary arteriograms (Chawla et al.), 637
changes in components of kinin system and hemodynamics in (Hashimoto et al.), 619
management of shock following. Part I. Drug therapy (Kuhn), 529
Part II. Mechanical circulatory assistance (Kuhn), 789
significance of nausea and vomiting during (Ahmed, Gupta, and Brancato), 671 (Annot.)
and mitral regurgitation, single coronary artery with (Newton and Burwell), 126 (Annot.)
and preinfarction angina, relationship between. A histopathological study of coronary arteries in two sudden death cases employing serial section (Horie, Sekiguchi, and Hirosawa), 81
angina pectoris and sudden cardiac death with normal coronary arteries: a clinicopathologic study of 9 patients with progressive systemic sclerosis (Bulkley, Klacsmann, and Hutchins), 563
in the Black population of South Africa: coronary arteriographic findings (Chesler et al.), 691
possible role of noradrenaline in the development of. An experimental study in the isolated rat heart (Waldenström, Hjalmarson, and Thornell), 43
radionuclides in the assessment of (Klein, Roberts, and Coleman), 659
Infective endocarditis, polymicrobial: an increasing clinical entity (Saravolatz et al.), 163
Inferior vena caval interruption in the prevention of fatal pulmonary embolism (Gardner), 679
Influence of etiology on the functional result of aortic valve replacement (Hossack and Neilson), 454
Indirect recording of left atrial activation in the main pulmonary trunk (Puech), 412 (Letter to Editor)
Reply (Amat-y-Leon and Rosen), 413
Inotropic agent, dobutamine, a new, in patients following cardiac surgery, measurement of the circulatory effects of (Lewis et al.), 301
Interference, electromagnetic in dynamic electrocardiography caused by an electric blanket (Gascho and Newton), 408 (Annot.)
International cardiology (Goodwin), 279
Interval prolongation, Q-T, hereditary (Romano-Ward syndrome), autonomic maneuvers in (Curtiss, Heibel, and Shaver), 420

Interventions or changes, assessment of effects of—the difference vector (Nelson et al.), 220
Intra-atrial Wenckebach, proximal, effects of on distal atrioventricular nodal, and His-Purkinje, block. With special reference to the theory of alernating Wenckebach periods (Castellanos et al.), 228
Intrapulmonary acetylcholine in bilharzial cor pulmonale (Abdel-Fattah et al.), 141
Ionescu-Shiley pericardial xenograft in the mitral position, hemodynamic evaluation of the (Tandon, Smith, and Ionescu), 595
Ischemia, myocardial, functional value of coronary collaterals in and therapeutic approach to enhance collateral flow (Cohen), 396
"silent" myocardial, during and after exercise testing in patients with coronary artery disease (Lindsey and Cohn), 441
Ischemic arrest during cardiopulmonary bypass, myocardial edema, a complication of (Engelman), 128 (Annot.)
heart disease, differences in metal content of the heart muscle in death from (Chipperfield and Chipperfield), 732
myocardium, post-extrasystolic potentiation of by atrial stimulation (Diamond et al.), 204
Isoenzyme(s), creatine kinase, in the assessment of heart disease (Roberts and Sobel), 521
MB, creatine phosphokinase, in hypothermia: case reports and experimental studies (Carlson, Emilson, and Rapaport), 352
Isolated T wave alternans (Navarro-Lopez et al.), 369
Isoproterenol stress in patients with aortic valve disease before and after corrective surgery, cardiac reserve during (Schwarz et al.), 146

K

Kinase isoenzymes, creatine, in the assessment of heart disease (Roberts and Sobel), 521
Kinin system and hemodynamics in acute myocardial infarction, changes in components of (Hashimoto et al.), 619

L

Lead V_1, abnormal P-terminal force in, on the significance of an (Chandraratna and Langevin), 267 (Annot.)
of the electrocardiogram, significance of a terminal R wave in (Raunio et al.), 702
Left anterior hemiblock, overdiagnosis of (Neurath), 675 (Letter to Editor)
atrial activation, indirect recording of in the main pulmonary trunk (Puech), 412 (Letter to Editor)
Reply (Amat-y-Leon and Rosen), 413
ventricular dysfunction, MLAP, LVEDP, and (Haddad and Prokhov), 814 (Letter to Editor)
Reply (Kouchoukos and Karp), 814
function at rest and during stress, effect of coronary collaterals on (Schwarz et al.), 570
work, of diastolic and systolic pressure and (Burch), 406 (Annot.)
Leg edema and nitroglycerin ointment therapy (Lee), 273 (Letter to Editor)
Lidocaine-induced cardiac rate changes in atrial fibrillation and atrial flutter (Danahy and Aronow), 474
Lone aortic regurgitation, aortic valve prostheses, rheumatic fever, and (Kloth), 275 (Letter to Editor)
Long-term survival in bacterial endocarditis: an analysis of factors affecting (McNeill, Strong, and Lockwood), 448
Low-renin ("primary") hyperaldosteronism, clinical, biochemical and pathological features of (Ferriss et al.), 375
Differential diagnosis and distinction of sub-groups within the syndrome (Ferriss et al.), 641
Lupus erythematosus, systemic, a unique antibody response associated with the development of membranous nephropathy in (Friend), 672 (Annot.)
LVEDP, MLAP, and left ventricular dysfunction (Haddad and Prokhov), 814 (Letter to Editor)
Reply (Kouchoukos and Karp), 814

M

Major medical centers, preceptorships at (Livingston), 413 (Letter to Editor)
Man, of the mind of (Burch), 269 (Annot.)
Management of shock following acute myocardial infarction. Part I. Drug therapy (Kuhn), 529
Part II. Mechanical circulatory assistance (Kuhn), 789
Maneuver, Valsalva, evaluation of the heart rate response to the (Kalbfleisch, Stowe, and Smith), 707
Mapping, precordial ST-segment, use of (Madias), 96
Marathoning, statistics, and CHD (Milvy), 538 (Annot.)
Massive myocardial necrosis in a young woman (Nemickas et al.), 766 (Clinical pathologic conference)
Materials, plastić, of in clinical medicine (Burch), 127 (Annot.)
MB isoenzyme, creatine phosphokinase, in hypothermia: case reports and experimental studies (Carlson, Emilson, and Rapaport), 352
Mechanical circulatory assistance. Management of shock following acute myocardial infarction. Part II (Kuhn), 789
Mechanism of antihypertensive effect of thiazide diuretics (Shah, Khatri, and Freis), 611
of concealed trigeminy (Kinoshita), 410 (Letter to Editor)
Reply (Levy), 411
Medical Centers, major, preceptorships at (Livingston), 413 (Letter to Editor)
management, contemporary, of stable angina pectoris (Sostman and Langou), 775
Medicine, clinical, of plastic materials in (Burch), 127 (Annot.)
Membranous nephropathy in systemic lupus erythematosus, a unique antibody response associated with the development of (Friend), 672 (Annot.)
Menstruation and heart disease (Goodyear), 675 (Letter to Editor)
Reply (Blood donors and coronary disease) (Seely), 675
Metal content of the heart muscle in death from ischemic heart disease, differences in (Chipperfield and Chipperfield), 732
Microvascular changes, analgesic abuse and (Abrahams, Furman, and Salant), 268 (Annot.)
Mind of man, of the (Burch), 269 (Annot.)
Mitral commissurotomy, early open, a plea for (Spencer), 668
position, hemodynamic evaluation of the Ionescu-Shiley pericardial xenograft in the (Tandon, Smith, and Ionescu), 595
regurgitation and myocardial infarction, single coronary artery with (Newton and Burwell), 126 (Annot.)
systolic murmurs, four year follow-up of Black schoolchildren with non-ejection systolic clicks and (Cohen et al.), 697
valve prolapse, coronary artery spasm and (Buda et al.), 457
MLAP, LVEDP, and left ventricular dysfunction (Haddad and Prokhov), 814 (Letter to Editor)
Reply (Kouchoukos and Karp), 814
More on effectiveness of the CCU (coronary care unit) (Fazzini, Marchi, and Pucci), 813 (Letter to Editor)
on high school health curricula (LaForge), 272 (Letter to Editor)
Morphine, effects of psychological stress and vagal stimulation with on vulnerability to ventricular fibrillation (VF) in the conscious dog (DeSilva, Verrier, and Lown), 197
Muscular dystrophy, Duchenne, sequence of cardiac changes in (Heymsfield et al.), 283

Myocardial edema, a complication of ischemic arrest during cardiopulmonary bypass (Engelman), 128 (Annot.)
infarction, acute, caused by hyperkalemia, electrocardiographic changes simulating: report of a patient with normal coronary arteriograms (Chawla et al.), 637
changes in components of kinin system and hemodynamics in (Hashimoto et al.), 619
management of shock following. Part I. Drug therapy (Kuhn), 529
Part II. Mechanical circulatory assistance (Kuhn), 789
significance of nausea and vomiting during (Ahmed, Gupta, and Brancato), 671 (Annot.)
usefulness and limitations of detection of myoglobin by radioimmunoassay in human sera as an emergency room screening test for (Gilkeson et al.), 70
and mitral regurgitation, single coronary artery with (Newton and Burwell), 126 (Annot.)
and preinfarction angina, relationship between. A histopathological study of coronary arteries in two sudden death cases employing serial section (Horie, Sekiguchi, and Hirosawa), 81
angina pectoris and sudden cardiac death with normal coronary arteries: a clinicopathologic study of 9 patients with progressive systemic sclerosis (Bulkley, Klacsmann, and Hutchins), 563
in the Black population of South Africa: coronary arteriographic findings (Chesler et al.), 691
possible role of noradrenaline in the development of. An experimental study in the isolated rat heart (Waldenström, Hjalmarson, and Thornell), 43
radionuclides in the assessment of (Klein, Roberts, and Coleman), 659
injury, acute, carbon monoxide and ventricular fibrillation threshold in dogs with (Aronow et al.), 754
ischemia, functional value of coronary collaterals in and therapeutic approach to enhance collateral flow (Cohen), 396
"silent," during and after exercise testing in patients with coronary artery disease (Lindsey and Cohn), 441
necrosis, massive, in a young woman (Nemickas et al.), 766 (Clinical pathologic conference)
Myocarditis, Chagas', histopathology of the conducting tissue of the heart in (Andrade et al.), 316
Myocardium, ischemic, post-extrasystolic potentiation of by atrial stimulation (Diamond et al.), 204
Myoglobin, detection of by radioimmunoassay in human sera: its usefulness and limitations as an emergency room screening test for acute myocardial infarction (Gilkeson et al.), 70

N

Natural fibrinolysis (Browse), 417
Nausea and vomiting during acute myocardial infarction, significance of (Ahmed, Gupta, and Brancato), 671 (Annot.)
Necrosis, myocardial, massive, in a young woman (Nemickas et al.), 766 (Clinical pathologic conference)
Needed: An F.D.A. for surgery? (Schoenfeld), 540 (Letter to Editor)
Nephropathy, membranous, in systemic lupus erythematosus, a unique antibody response associated with the development of (Friend), 672 (Annot.)
Nerve stimulation, vagus, effect of on ventricular fibrillation threshold (Kolman, Verrier, and Lown), 132 (Letter to Editor)
Reply (Han and Yoon), 132
Nervous system, central, role of the in chronic congestive heart failure (Burch), 255
Nitroglycerin, intravenous, ventricular function and coronary hemodyamics after in coronary artery disease (Strauer and Scherpe), 210
ointment therapy and leg edema (Lee), 273 (Letter to Editor)
Nodosa, panarteritis, involvement of the cardiac conduction system in (Thiene, Valente, and Rossi), 716
Node dysfunction, sinus, symptomatic, vagal tone, significance of electrophysiologic findings and clinical course in (Thormann et al.), 725
Non-ejection systolic clicks and mitral systolic murmurs, four year follow-up of Black schoolchildren with (Cohen et al.), 697
Noninvasive techniques, prediction of aortic valvular area and gradient by (Cousins, Eddleman, and Reeves), 308
Non-specific aorto-arteritis in Singapore with special reference to hypertension (Teoh et al.), 683
Noradrenaline in the development of myocardial infarction, possible role of. An experimental study in the isolated rat heart (Waldenström, Hjalmarson, and Thornell), 43
Nutritional repletion, cardiac abnormalities in cachectic patients before and during (Heymsfield et al.), 584

O

Occlusion, coronary, acute, effect of chronic cardiac denervation on infarct size following (Jones et al.), 738
Of diastolic and systolic pressure and left ventricular work (Burch), 406 (Annot.)
plastic materials in clinical medicine (Burch), 127 (Annot.)
teaching hygiene (Burch), 535 (Annot.)
the mind of man (Burch), 269 (Annot.)
sham operation (Burch), 674 (Annot.)
why the two heart pumps are anatomically united to form one heart (Burch), 811 (Annot.)
Ointment therapy, nitroglycerin, and leg edema (Lee), 273 (Letter to Editor)
Ondine's Curse: Hemodynamic response to diaphragm pacing (electrophrenic respiration) (Langou et al.), 295
One heart, of why the two heart pumps are anatomically united to form (Burch), 811 (Annot.)
Open mitral commissurotomy, early, a plea for (Spencer), 668
Operation, of the sham (Burch), 674 (Annot.)
Orally active stimulant of cardiac adrenergic beta-receptors, new, human pharmacology studies with a (Knaus et al.), 602
Orthogonal electrocardiogram in normal women, the. Implications of sex differences in diagnostic electrocardiography (Nemati et al.), 12
Osler-Weber-Rendu disease (hereditary telangiectasia) and hepatic arteriovenous fistulas, misdiagnosis of atrial septal defect in patients with (Radtke et al.), 235
Overdiagnosis of left anterior hemiblock (Neurath), 675 (Letter to Editor)

P

Pacemaker(s) and pacing, cardiac IX. Statistical analysis of pacemaker data. (Furman and Whitman), 115
catheter, fibrin deposition on in a heparinized patient (MacMillan and Strate), 405 (Annot.)
data, statistical analysis of. Cardiac pacing and pacemakers IX (Furman and Whitman), 115
failing artificial, influence of atrial activity on ventricular capture by I. Report of two new cases and review of the literature (Abernathy and Lepeschkin), 502
of atrial systole on ventricular capture by II. Experimental observations (Abernathy, Ferrier, and Moe), 489
implant, cardiac, increase of WBC, CRP and BSR following (Yokoyama), 671 (Annot.)
salvage the, at autopsy (Rossi), 540 (Letter to Editor)
Pacing and pacemakers, cardiac IX. Statistical analysis of pacemaker data (Furman and Whitman), 115
diaphragm (electrophrenic respiration), hemodynamic response to—Ondine's curse (Langou et al.), 295
Panarteritis nodosa, involvement of the cardiac conduction system in (Thiene, Valente, and Rossi), 716

Paralysis, periodic, prominent electrocardiographic conduction aspects of hypokalemia in a patient with (Johnson and Catinchi), 359
Parasystole and re-entry (Kinoshita), 812 (Letter to Editor)
Reply (Lightfoot), 813
Paroxysmal atrioventricular junctional reentrant tachycardia, antegrade and retrograde conduction characteristics in 3 patterns of (Akhtar et al.), 22
Pathological, clinical, and biochemical features of low-renin ("primary") hyperaldosteronism (Ferriss et al.), 375
Pectoris, angina, abrupt propranolol withdrawal in: effects on platelet aggregation and exercise tolerance (Frishman et al.), 169
myocardial infarction and sudden cardiac death with normal coronary arteries: a clinicopathologic study of 9 patients with progressive systemic sclerosis (Bulkley, Klacsmann, and Hutchins), 563
Pentobarbital anesthesia on ventricular defibrillation threshold in dogs, effect of (Babbs), 331
Pericardial xenograft, Ionescu-Shiley, in the mitral position, hemodynamic evaluation of the (Tandon, Smith, and Ionescu), 595
Periodic paralysis, prominent electrocardiographic conduction aspects of hypokalemia in a patient with (Johnson and Catinchi), 359
Pharmacology studies, human, with a new, orally active stimulant of cardiac adrenergic beta-receptors (Knaus et al.), 602
Phlebitis, acute postoperative graft: a rare cause of saphenous vein–coronary artery bypass failure (Bulkley and Hutchins), 757
Phosphokinase, creatine, MB isoenzyme in hypothermia: case reports and experimental studies (Carlson, Emilson, and Rapaport), 352
Plasma catecholamines in hypertensive patients, effect of saralasin upon (Vlachakis, Ribeiro, and Krakoff), 78
Plastic materials in clinical medicine, of (Burch), 127 (Annot.)
Platelet aggregation and exercise tolerance, effects on after abrupt propranolol withdrawal in angina pectoris (Frishman et al.), 169
Plea for early, open mitral commissurotomy, a (Spencer), 668
Polymicrobial infective endocarditis: an increasing clinical entity (Saravolatz et al.), 163
Porcine xenograft valve, echocardiographic features of the normal and malfunctioning (Chandraratna and San Pedro), 548
Post-extrasystolic potentiation of ischemic myocardium by atrial stimulation (Diamond et al.), 204
Postoperative graft phlebitis, acute: a rare cause of saphenous vein–coronary artery bypass failure (Bulkley and Hutchins), 757
Potassium and salt substitutes (Haddad), 134 (Letter to Editor)
Prazosin (Therapy) (Lowenstein and Steele), 262
Preceptorships at major medical centers (Livingston), 413 (Letter to Editor)
Precordial ST-segment mapping, use of (Madias), 96
Prediction of aortic valvular area and gradient by noninvasive techniques (Cousins, Eddleman, and Reeves), 308
Preinfarction angina, relationship between myocardial infarction and. A histopathological study of coronary arteries in two sudden death cases employing serial section (Horie, Sekiguchi, and Hirosawa), 81
Premature activation of the ventricular conduction system, functional properties of the left septal Purkinje network in (Iwamura et al.), 60
Pressure, arterial, the variability of (Littler et al.), 180
cerebrospinal fluid, elevated, components of the hemodynamic response to (Brashear and Yu), 52
of diastolic and systolic, and left ventricular work (Burch), 406 (Annot.)
Primary (low-renin) hyperaldosteronism, clinical, biochemical, and pathological features of (Ferriss et al.), 375
Primary (low-renin) hyperaldosteronism—continued
Differential diagnosis and distinction of sub-groups within the syndrome (Ferriss et al.), 641
Progressive systemic sclerosis, a clinicopathologic study of 9 patients with: angina pectoris, myocardial infarction and sudden cardiac death with normal coronary arteries (Bulkley, Klacsmann, and Hutchins), 563
Prolapse, mitral valve, coronary artery spasm and (Buda et al.), 457
Prominent electrocardiographic conduction aspects of hypokalemia in a patient with periodic paralysis (Johnson and Catinchi), 359
Propranolol withdrawal in angina pectoris, abrupt: effects on platelet aggregation and exercise tolerance (Frishman et al.), 169
Prostheses, valve, aortic ball, arterial thromboembolic complications with (Boekhout-Mussert et al.), 270 (Letter to Editor)
Reply (Dale), 271
rheumatic fever, and lone aortic regurgitation (Kloth), 275 (Letter to Editor)
Proximal intra-atrial Wenckebach, effects of, on distal atrioventricular nodal, and His-Purkinje, block. With special reference to the theory of alternating Wenckebach periods (Castellanos et al.), 228
Psittacosis, "rheumatic" heart disease, and the importance of epidemiology (Ward), 266 (Annot.)
Psychological stress and vagal stimulation with morphine on vulnerability to ventricular fibrillation (VF) in the conscious dog, effects of (DeSilva, Verrier, and Lown), 197
P-terminal force in Lead V_1, abnormal, on the significance of an (Chandraratna and Langevin), 267 (Annot.)
Pulmonary embolism, fatal, inferior vena caval interruption in the prevention of (Gardner), 679
tree, vascular, report of a case of pulmomary varix with additional anomalies of the (Moro et al.), 243
trunk, main, indirect recording of left atrial activation in the (Puech), 412 (Letter to Editor)
Reply (Amat-y-Leon and Rosen), 413
varix: report of a case with additional anomalies of the vascular pulmonary tree (Moro et al.), 243
vascular effects of verapamil (Davidson, McMurtry, and Reeves), 810 (Annot.)
Pumps, the two heart, of why they are anatomically united to form one heart (Burch), 811 (Annot.)
Purkinje network, left septal, in premature activation of the ventricular conduction system, functional properties of the (Iwamura et al.), 60

Q

Q waves after bypass grafting, significance of new: correlations between graft patency, ventriculogram, and surgical venting (Aintablian et al.), 429
Q-T interval prolongation, hereditary (Romano-Ward syndrome), autonomic maneuvers in (Curtiss, Heibel, and Shaver), 420

R

R wave, terminal, in Lead V_1 of the electrocardiogram, significance of a (Raunio et al.), 702
Radioimmunoassay for detection of myoglobin in human sera: its usefulness and limitations as an emergency room screening test for acute myocardial infarction (Gilkeson et al.), 70
Radionuclides in the assessment of myocardial infarction (Klein, Roberts, and Coleman), 659
Reactions to furosemide (Warren and Steinberg), 541 (Letter to Editor)
Reply (Greenblatt), 542
Recording of left atrial activation, indirect, in the main pulmonary trunk (Puech), 412 (Letter to Editor)
Reply (Amat-y-Leon and Rosen), 413

Re-entry and parasystole (Kinoshita), 812 (Letter to Editor) Reply (Lightfoot), 813
References—dog's tails? (Kennedy), 274 (Letter to Editor)
Refractoriness, differential, of ventricular specialized conduction system (Tenczer and Littmann), 270 (Letter to Editor)
Regurgitation, lone aortic, aortic valve prostheses, rheumatic fever, and (Kloth), 275 (Letter to Editor)
mitral, and myocardial infarction, single coronary artery with (Newton and Burwell), 126 (Annot.)
Repletion, nutritional, cardiac abnormalities in cachectic patients before and during (Heymsfield et al.), 584
Research, venture (Seely), 133 (Letter to Editor)
Respiration, electrophrenic (diaphragm pacing), hemodynamic response to—Ondine's curse (Langou et al.), 295
Retrograde Wenckebach phenomenon in ventricular tachycardia (Cotoi, Georgescu, and Cozlea), 676 (Letter to Editor)
Rheumatic fever, aortic valve prostheses, and lone aortic regurgitation (Kloth), 275 (Letter to Editor)
heart disease, psittacosis and the importance of epidemiology (Ward), 266 (Annot.)
Rhythm, cardiac, definition of terms related to (WHO/ISC Task Force—*see also* de Medina et al.), 796 (Special report)
disorders, cardiac, alcohol-associated: arrhythmias and the "Holiday Heart" (Ettinger et al.), 555
Romano-Ward syndrome (hereditary Q-T interval prolongation), autonomic maneuvers in (Curtiss, Heibel, and Shaver), 420

S

Salt substitutes and potassium (Haddad), 134 (Letter to Editor)
"Salvage the pacemaker" at autopsy (Rossi), 540 (Letter to Editor)
Saphenous vein—coronary artery bypass failure: acute postoperative graft phlebitis, a rare cause of (Bulkley and Hutchins), 757
Saralasin upon plasma catecholamines in hypertensive patients, effect of (Vlachakis, Ribeiro, and Krakoff), 78
Schoolchildren, black, with non-ejection systolic clicks and mitral systolic murmurs, four year follow-up of (Cohen et al.), 697
Sclerosis, progressive systemic, a clinicopathologic study of 9 patients with: angina pectoris, myocardial infarction and sudden cardiac death with normal coronary arteries (Bulkley, Klacsmann, and Hutchins), 563
Septal defect, atrial, misdiagnosis of, in patients with hereditary telangiectasia (Osler-Weber-Rendu disease) and hepatic arteriovenous fistulas (Radtke et al.), 235
Purkinje network, left, in premature activation of the ventricular conduction system, functional properties of the (Iwamura et al.), 60
Sera, human, detection of myoglobin by radioimmunoassay in: its usefulness and limitations as an emergency room screening test for acute myocardial infarction (Gilkeson et al.), 70
Sex and age, sudden deaths from IHD by (Hodes), 413 (Letter to Editor)
differences in diagnostic electrocardiography, implications of. Orthogonal electrocardiogram in normal women (Nemati et al.), 12
Sham operation, of the (Burch), 674 (Annot.)
Shock following acute myocardial infarction, management of. Part I. Drug therapy (Kuhn), 529
Part II. Mechanical circulatory assistance (Kuhn), 789
"Silent" myocardial ischemia during and after exercise testing in patients with coronary artery disease (Lindsey and Cohn), 441
Singapore, non-specific aorto-arteritis in with special reference to hypertension (Teoh et al.), 683
Single coronary artery with myocardial infarction and mitral regurgitation (Newton and Burwell), 126 (Annot.)
Sinus node dysfunction, symptomatic, vagal tone, significance of electrophysiologic findings and clinical course in (Thormann et al.), 725
Spasm, coronary artery, and mitral valve prolapse (Buda et al.), 457
Specialized conduction system, ventricular, differential refractoriness of (Tenczer and Littman), 270 (Letter to Editor)
ST-segment mapping, use of precordial (Madias), 96
Stable angina pectoris, contemporary medical management of (Sostman and Langou), 775
Statistical analysis of pacemaker data. Cardiac pacing and pacemakers IX (Furman and Whitman), 115
Statistics, marathoning and CHD (Milvy), 538 (Annot.)
Stenosed coronary arteries in dogs, comparison of coronary arteriograms with direct measurements of (Gallagher, Folts, and Rowe), 338
Stress, effect of coronary collaterals on left ventricular function at rest and during (Schwarz et al.), 570
Substitutes, salt, and potassium (Haddad), 134 (Letter to Editor)
Sudden cardiac death, angina pectoris, and myocardial infarction with normal coronary arteries: a clinicopathologic study of 9 patients with progressive systemic sclerosis (Bulkley, Klacsmann, and Hutchins), 563
deaths from IHD by age and sex (Hodes), 413 (Letter to Editor)
Surgery, needed, an F.D.A. for? (Schoenfeld), 540 (Letter to Editor)
Surgical treatment of a congenital arteriovenous malformation, systemic hypertension after (Rocchini et al.), 497
venting, graft patency, and ventriculogram, correlations between: significance of new Q waves after bypass grafting (Aintablian et al.), 429
Survival, long-term, in bacterial endocarditis: an analysis of factors affecting (McNeill, Strong, and Lockwood), 448
Symptomatic sinus node dysfunction, vagal tone, significance of electrophysiologic findings and clinical course in (Thormann et al.), 725
Syndrome—low-renin ("primary") hyperaldosteronism—differential diagnosis and distinction of sub-groups within the (Ferriss et al.), 641
System, central nervous, role of the in chronic congestive heart failure (Burch), 255
Systemic hypertension after surgical treatment of a congenital arteriovenous malformation (Rocchini et al.), 497
lupus erythematosus, a unique antibody response associated with the development of membranous nephropathy in (Friend), 672 (Annot.)
sclerosis, progressive, a clinicopathologic study of 9 patients with: angina pectoris, myocardial infarction and sudden cardiac death with normal coronary arteries (Bulkley, Klacsmann, and Hutchins), 563
Systole, atrial, on ventricular capture by failing artificial pacemakers, influence of II. Experimental observations (Abernathy, Ferrier, and Moe), 489
Systolic and diastolic pressure and left ventricular work, of (Burch), 406 (Annot.)
clicks, non-ejection, and mitral systolic murmurs, four year follow-up of Black schoolchildren with (Cohen et al.), 697
murmurs, mitral, four year follow-up of Black schoolchildren with non-ejection systolic clicks and (Cohen et al.), 697
time intervals in thyroid dysfunction, the (Burckhardt et al.), 187

T

T wave alternans, isolated (Navarro-Lopez et al.), 369
Tachycardia, paroxysmal atrioventricular junctional reentrant, antegrade and retrograde conduction characteristics in 3 patterns of (Akhtar et al.), 22
ventricular, retrograde Wenckebach phenomenon in (Cotoi, Georgescu, and Cozlea), 676 (Letter to Editor)
Tails, dog's—references? (Kennedy), 274 (Letter to Editor)
Teaching hygiene, of (Burch), 535 (Annot.)
Telangiectasia, hereditary (Osler-Weber-Rendu disease) and hepatic arteriovenous fistulas, misdiagnosis of atrial septal defect in patients with (Radtke et al.), 235
Terminal R wave in Lead V_1 of the electrocardiogram, significance of a (Raunio et al.), 702
Terms related to cardiac rhythm, definition of (WHO/ISC Task Force—*see also* de Medina et al.), 796 (Special report)
The hypertension complex (Mendlowitz), 389
Therapy, appropriate, of hypertension in "the elderly" (Barlow), 809 (Annot.)
nitroglycerin ointment, and leg edema (Lee), 273 (Letter to Editor)
Thiazide diuretics, mechanism of antihypertensive effect of (Shah, Khatri, and Freis), 611
Threshold, ventricular defibrillation, in dogs, effect of pentobarbital anesthesia on (Babbs), 331
Thromboembolic complications, arterial, with aortic ball valve prostheses (Boekhout-Mussert et al.), 270 (Letter to Editor)
Reply (Dale), 271
Thromboembolism, venous, can death from be prevented in elderly patients with hip fractures? (Morris and Mitchell), 139
Thyroid dysfunction, the systolic time intervals in (Burckhardt et al.), 187
Time intervals, systolic, in thyroid dysfunction, the (Burckhardt et al.), 187
To each according to his desert (Scherf and Cohen), 536 (Annot.)
hospital, or at home? (Donaldson), 406 (Annot.)
Treadmill exercise testing and the exercise electrocardiogram, concepts and applications of (Faris, McHenry, and Morris), 102
significance of hypotension developing during (Levites, Baker, and Anderson), 747
Tricuspid atresia, simulated tricuspid valve echoes in (Silverman, Payot, and Stanger), 761
valve echoes, simulated, in tricuspid atresia (Silverman, Payot, and Stanger), 761
Trigeminy, concealed, mechanism of (Kinoshita), 410 (Letter to Editor)
Reply (Levy), 411
Triglycerides and fructose (Halpern), 540 (Letter to Editor)
Trunk, pulmonary, main, indirect recording of left atrial activation in the (Puech), 412 (Letter to Editor)
Reply (Amat-y-Leon and Rosen), 413
Two heart pumps are anatomically united to form one heart, of why the (Burch), 811 (Annot.)

V

Vagal stimulation and psychological stress with morphine on vulnerability to ventricular fibrillation (VF) in the conscious dog, effects of (DeSilva, Verrier, and Lown), 197
tone, significance of electrophysiologic findings and clinical course in symptomatic sinus node dysfunction (Thormann et al.), 725
Vagus nerve stimulation on ventricular fibrillation threshold, effect of (Kolman, Verrier, and Lown), 132 (Letter to Editor)
Reply (Han and Yoon), 132
Valsalva maneuver, evaluation of the heart rate response to the (Kalbfleisch, Stowe, and Smith), 707
Valve, aortic, fine flutterings of as demonstrated by aortic valve echocardiograms (Pinto et al.), 807 (Annot.)
disease, aortic, cardiac reserve during isoproterenol stress in patients with before and after corrective surgery (Schwarz et al.), 146
echoes, tricuspid, simulated, in tricuspid atresia (Silverman, Payot, and Stanger), 761
porcine xenograft, echocardiographic features of the normal and malfunctioning (Chandraratna and San Pedro), 548
prolapse, mitral, coronary artery spasm and (Buda et al.), 457
prostheses, aortic ball, arterial thromboembolic complications with (Boekhout-Mussert et al.), 270 (Letter to Editor)
Reply (Dale), 271
rheumatic fever, and lone aortic regurgitation (Kloth), 275
replacement, aortic, influence of etiology on the functional result of (Hossack and Neilson), 454
heart, artificial, cholelithiasis, a frequent complication of (Harrison et al.), 483
Valvular area, aortic, and gradient, prediction of by noninvasive techniques (Cousins, Eddleman, and Reeves), 308
Variability of arterial pressure, the (Littler et al.), 180
Varix, pulmonary: report of a case with additional anomalies of the vascular pulmonary tree (Moro et al.), 243
Vascular bed in essential hypertension, total effective compliance of the (London et al.), 325
effects of verapamil, pulmonary, (Davidson, McMurtry, and Reeves), 810 (Annot.)
pulmonary tree, report of a case of pulmonary varix with additional anomalies of the (Moro et al.), 243
Vector, difference: assessment of effects of changes or interventions (Nelson et al.), 220
Vena caval interruption, inferior, in the prevention of fatal pulmonary embolism (Gardner), 679
Venous thromboembolism, can death from be prevented in elderly patients with hip fractures? (Morris and Mitchell), 139
Ventricular afterload: a succinct yet comprehensive definition (Noordergraaf and Melbin), 545
capture by failing artificial pacemakers, influence of atrial activity on I. Report of two new cases and review of the literature (Abernathy and Lepeschkin), 502
influence of atrial systole on II. Experimental observations (Abernathy, Ferrier, and Moe), 489
conduction system, functional properties of the left septal Purkinje network in premature activation of the (Iwamura et al.), 60
defibrillation threshold in dogs, effect of pentobarbital anesthesia on (Babbs), 331
dysfunction, left, MLAP, LVEDP, and (Haddad and Prokhov), 814 (Letter to Editor)
Reply (Kouchoukos and Karp), 814
fibrillation threshold and carbon monoxide in dogs with acute myocardial injury (Aronow et al.), 754
effect of vagus nerve stimulation on (Kolman, Verrier, and Lown), 132 (Letter to Editor)
Reply (Han and Yoon), 132
(VF) in the conscious dog, effects of psychological stress and vagal stimulation with morphine on vulnerability to (DeSilva, Verrier, and Lown), 197
function and coronary hemodynamics after intravenous nitroglycerin in coronary artery disease (Strauer and Scherpe), 210
left, at rest and during stress, effect of coronary collaterals on (Schwarz et al.), 570
specialized conduction system, differential refractoriness of (Tenczer and Littmann), 270 (Letter to Editor)
tachycardia, retrograde Wenckebach phenomenon in (Cotoi, Georgescu, and Cozlea), 676 (Letter to Editor)

Ventricular—continued
work, left, of diastolic and systolic pressure and (Burch), 406 (Annot.)
Ventriculogram, graft patency, and surgical venting, correlations between: significance of new Q waves after bypass grafting (Aintablian et al.), 429
Venture research (Seely), 133 (Letter to Editor)
Verapamil, pulmonary vascular effects of (Davidson, McMurtry, and Reeves), 810 (Annot.)
Vomiting and nausea during acute myocardial infarction, significance of (Ahmed, Gupta, and Brancato), 671 (Annot.)

W

Wave, T, alternans, isolated (Navarro-Lopez et al.), 369
WBC, CRP and BSR following cardiac pacemaker implant, increase of (Yokoyama), 671 (Annot.)
Wenckebach periods, alternating, special reference to the theory of. Effects of proximal intra-atial Wenckbach on distal atrioventricular nodal, and His-Purkinje, block (Castellanos et al.), 228
Wenckebach—continued
phenomenon, retrograde, in ventricular tachycardia (Cotoi, Georgescu, and Cozlea), 676 (Letter to Editor)
proximal intra-atrial, effects of on distal atrioventricular nodal, and His-Purkinje, block. With special reference to the theory of alternating Wenckebach periods (Castellanos et al.), 228
Wolff-Parkinson-White (Type B), Ebstein's anomaly, and congenital ichthyosis (Weiss), 133 (Letter to Editor)
Work, left ventricular, of diastolic and systolic pressure and (Burch), 406 (Annot.)

X

Xenograft, Ionescu-Shiley pericardial, in the mitral position, hemodynamic evaluation of the (Tandon, Smith, and Ionescu), 595
valve, porcine, echocardiographic features of the normal and malfunctioning (Chandraratna and San Pedro), 548

Subject index*

A

A wave, ventricular, the: a new echocardiographic index of late diastolic filling of the left ventricle (Ambrose et al.), 615
Abdominal swelling, fatigue, and dyspnea in a 13-year-old boy (Fowler et al.), 533 (CPC)
Acid gas-induced MI (Puletti et al.), 561 (Letter to Editor)
Acknowledgment to reviewers, 709
Acute myocardial infarction, blood pressure levels in (Gibson), 475
  evaluation of the hemodynamic effects of hyaluronidase in patients with (Ray et al.), 700 (Letter to Editor)
  favorable effects of prolonged nitroglycerin infusion in patients with (Derrida, Sal, and Chiche), 833 (Annot.)
  in sudden cardiac death, role of—a statistician's nightmare (Lovegrove and Thompson), 711
  rapid, sensitive detection of myoglobinemia by improved counterimmunoelectrophoresis in cases of (Hiramori et al.), 187
  serum myoglobin in: a clinical study and review of the literature (Varki et al.), 680
  the temperature course in (Löfmark, Nordlander, and Orinius), 153
Adverse reactions to methyldopa with particular reference to hypotension (Lawson, Gloss, and Jick), 572
Aged, hypertrophic cardiomyopathy in the (Krasnow and Stein), 326
Aging on ventricular contractile performance, the effect of (Urthaler, Walker, and James), 481
Alterations in the ECG, ischemic myocardial disease and (Halbersleben), 276 (Letter to Editor)
Alternate view of hypertension control from Gimbels (Alderman, Seligmann, and Davis), 421 (Letter to Editor)
  Reply (Sackett et al.), 422
Aluminum hydroxide gel, noninterference of with quinidine sulfate absorption: an approach to control quinidine-induced diarrhea (Romankiewicz et al.), 518
Amyl nitrite, isoproterenol, and standing before and during acute beta-adrenergic blockade with intravenous propranolol, comparison of heart rate and blood pressure response to (Niarchos, Tahmooressi, and Tarazi), 47
Anephric patients with hypertension, peripheral hemodynamics in (Vyden et al.), 203
Aneurysm, infective, of the left ventricle: angiographic and echocardiographic features (Saksena et al.), 384
  isolated dissecting, of the renal artery (Bakir et al.), 92
  subannular aortic, echocardiographic detection of a (Alter et al.), 525
Aneurysmectomy, left ventricular, an evaluation of the results of: use of a simplified method for analysis of the left ventriculogram (Smulyan et al.), 596
  long term follow-up of for recurrent ventricular tachycardia or fibrillation (Sami et al.), 303
Angina, intractable, assessment of perhexiline maleate in angiographically proven: a double-blind trial (Mir and Kafetzakis), 350
  nocturnal (Luceri), 421 (Letter to Editor)
  pectoris, exercise tests, atrial pacing, and myocardial lactate extraction in relation to coronary arteriography in young patients with (Rajasalmi and Takkunen), 751
    prolonged benefit of nitroglycerin ointment on exercise tolerance in patients with (Karsh et al.), 587
    spontaneous changes in the severity of (Short and Stowers), 415 (Annot.)
Anginal chest pain, predictive value of as an indicator of coronary disease during exercise testing (Weiner et al.), 458
Angiocardiograms, additional, for Tetralogy of Fallot (Siassi, Aryanpur, and Shakibi), 135 (Letter to Editor)
Angiograms, coronary, reproducibility of a consensus panel in the interpretation of (Sanmarco, Brooks, and Blankenhorn), 430
Angiographic and echocardiographic features of infective aneurysm of the left ventricle (Saksena et al.), 384
Angiographically proven intractable angina, assessment of perhexiline maleate in: a double-blind trial (Mir and Kafetzakis), 350
Angiography, coronary, organized left atrial mural thrombus demonstrated by (Cipriano and Guthaner), 166
  ventricular, left, lactate production after in coronary artery disease (Visioli et al), 835 (Letter to Editor)
Angiopathy, diabetic—its lessons in vascular physiology (McMillan), 401
Announcements, 138, 282, 426, 568, 708, 842
Antianginal therapy, testing: in favor of current practice (Shapiro), 701 (Letter to Editor)
Antibodies, prevention and reversal of digoxin intoxication with specific (Hess, Scholtysik, and Riesen), 486
Anticoagulation during noncardiac operations in patients with prosthetic heart valves, management of. A prospective study (Katholi, Nolan, and McGuire), 163
Antihypertensive drugs, effect of with leukocyte intracellular cations in hypertension (Araoye et al.), 731
  effect of cardiovascular Ca^{2+} antagonist in hypertensive patients in the absence and presence of beta-adrenergic blockade (Aoki et al.), 218
Aortic and mitral valve prostheses, Starr-Edwards, cloth-covered, complications due to cloth wear in and their management in (Shah et al.), 407
  aneurysm, subannular, echocardiographic detection of a (Alter et al.), 525
  pressure pulse response, postextrasystolic, in coronary artery disease (Hamby et al.), 195
  stenosis, calcific, and acute idiopathic pericarditis: unusual fatal disease combination (Wheatley), 87
    distinctive echocardiographic pattern of posterior wall endocardial motion in (Sheppard et al.), 9
  valve replacement, intravascular hemolysis in the late course of. Relation to valve type, size, and function (Dale and Myhre), 24
    leukocyte function after (Kvarstein and Dale), 624
Aortocoronary bypass revascularization, hemorrhagic myocardial infarction associated with (Lie et al.), 295
  surgery, radionuclide assessment of ventricular performance during propranolol withdrawal prior to (Reduto et al.), 714
Arrhythmias, ventricular, exercise-induced or augmented, effect of a new beta-blocking agent, levo-bunolol, on (Shapiro and Park), 417 (Annot.)
Arterial hypoxemia following the administration of sublingual nitroglycerin (Kopman et al.), 444
  thrombosis in essential thrombocythemia (Hussain et al.), 31
Arteriography, coronary, in young patients with angina pectoris, exercise tests, atrial pacing, and myocardial lactate extraction in relation to (Rajasalmi and Takkunen), 751
Arteriosclerosis, coronary, and the strength of the myocardial contraction as measured by invasive and noninvasive tests, blind study on the relations between the extent of (Starr et al.), 37

*July, pp. 1-138; August, pp. 139-282; September, pp. 283-426; October, pp. 427-568; November, pp. 569-708; December, pp. 709-864.

Arteriosus, truncus, in a family (Brunson et al.), 419 (Letter to Editor)
Artery(ies) calcification, coronary, noninvasive diagnosis of ischemic cardiomyopathy by fluoroscopic detection of (Johnson, Laiken, and Shabetai), 521
coronary, left main, disease of the, surgical versus medical treatment in (Graham), 1
Teflon felt embolism of after cardiac surgery: a case report (Bedetti, Siewers, and Dunsford), 802
to pulmonary artery fistulas (Iskandrian et al.), 605
disease, coronary, effects of rapid digitalization on total and regional myocardial performance in patients with (Ferlinz, DelVicario, and Aronow), 337
lactate production after left ventricular angiography in (Visioli et al.), 835 (Letter to Editor)
postextrasystolic aortic pressure pulse response in (Hamby et al.), 195
fistulas, coronary, emptying into left heart chambers (Arani, Greene, and Klocke), 438
pulmonary, coronary artery to (Iskandrian et al.), 605
great, levotransposition of the, electrophysiologic-histologic correlation of the cardiac specialized conduction system in two cases of single ventricle and (Schatz, Fenoglio, and Krongrad), 235
occlusion, coronary, in dogs, protection of ischemic myocardium by whole-body hypothermia after (Abendschein, Tacker, and Babbs), 772
renal, isolated dissecting aneurysm of the (Bakir et al.), 92
spasm, coronary—diagnostic and therapeutic implications (Maseri et al.), 554 (Annot.)
Asymptomatic or silent myocardial ischemia (Liss), 838 (Letter to Editor)
Reply (Cohn), 838
Atherosclerosis in infants and children and viral infections, of (Burch), 558 (Annot.)
Atresia, common pulmonary vein (Ledbetter, Wells, and Connors), 580
pulmonary, congenital tricuspid incompetence simulating with intact ventricular septum: a report of two cases (Berman et al.), 655
Atrial flutter. Electrocardiographic, vectorcardiographic and echocardiographic correlation (Zoneraich et al.), 286
with 1:1 atrioventricular conduction, electrophysiological studies in four patients with (Kennelly and Lane), 723
mural thrombus, organized left, demonstrated by coronary angiography (Cipriano and Guthaner), 166
pacing, exercise tests, and myocardial lactate extraction in relation to coronary arteriography in young patients with angina pectoris (Rajasalmi and Takkunen), 751
Atrioventricular (A-V) conduction, 1:1, electrophysiological studies in four patients with atrial flutter with (Kennelly and Lane), 723
node, exposure of concealed right bundle branch block in Wolff-Parkinson-White type B by pacing from the vicinity of the (Garcia et al.), 662
pacing, sequential, with a single bipolar electrode catheter (Wald, Waxman, and Bonet), 828 (Annot.)
reentrant tachycardia, effects of bundle branch block on experimental (Amat-y-Leon et al.), 62
Augmented or exercise-induced ventricular arrhythmias, effect of a new beta-blocking agent, levo-bunolol, on (Shapiro and Park), 417 (Annot.)

B

Bacterial endocarditis, prevention of. Infective endocarditis Part III (Lowy and Steigbigel), 689
Basal systolic murmurs in mitral stenosis, origin of. A study with intracardiac phonocardiography (Kambe et al.), 512
Beta-adrenergic blockade, antihypertensive effect of cardiovascular Ca^{2+} antagonist in hypertensive patients in the absence and presence of (Aoki et al), 218
Beta-adrenergic blockade—continued
with intravenous propranolol, comparison of heart rate and blood pressure response to amyl nitrite, isoproterenol, and standing before and during acute (Niarchos, Tahmooressi, and Tarazi), 47
-blocking agent, new, levo-bunolol, on exercise-induced or augmented ventricular arrhythmias, the effect of a (Shapiro and Park), 417 (Annot.)
-thalassemia, left ventricular function in and the effect of multiple transfusions (Lewis et al.), 636
Bipolar electrode catheter, single, sequential atrioventricular pacing with a (Wald, Waxman, and Bonet), 828 (Annot.)
Block, right bundle branch, in Wolff-Parkinson-White type B, exposure of concealed by pacing from the vicinity of the A-V node (Garcia et al.), 662
Wenckebach conduction, ouabain-induced, in canine Purkinje fibers: the role of cycle length and time dependent changes in membrane potential (Anderson and Reiser), 781
Blockade, beta-adrenergic, antihypertensive effect of cardiovascular Ca^{2+} antagonist in hypertensive patients in the absence and presence of (Aoki et al.), 218
Blood pressure and heart rate response to amyl nitrite, isoproterenol, and standing before and during acute beta-adrenergic blockade with intravenous propranolol, comparison of (Niarchos, Tahmooressi, and Tarazi), 47
levels in acute myocardial infarction (Gibson), 475
measurement and cuff size, more on (Guntheroth), 423 (Letter to Editor)
indirect, with the incorrect size of cuff, the error in (Geddes and Whistler), 4
Book reviews, 137, 280, 425, 567, 707, 841
Books received, 138, 281, 426, 567, 708
Borderline hypertensive patients and normotensives, orthostatic hypertension in (Safar), 563 (Letter to Editor)
Brain; lymphatic drainage of and catarrhea (Gordon), 274 (Letter to Editor)
Branch block, bundle, effects of on experimental A-V reentrant tachycardia (Amat-y-Leon et al.), 62
rate dependent, variations in the critical cycle length inducing (Kinoshita), 54
right bundle, in Wolff-Parkinson-White type B, exposure of concealed by pacing from the vicinity of the A-V node (Garcia et al.), 662
left bundle, intramural ramification of the (Rossi), 271 (Annot.)
Bundle branch block on experimental A-V reentrant tachycardia, effects of (Amat-y-Leon et al.), 62
right, in Wolff-Parkinson-White type B, exposure of concealed by pacing from the vicinity of the A-V node (Garcia et al.), 662
variations in the critical cycle length inducing rate dependent (Kinoshita), 54
left, intramural ramification of the (Rossi), 271 (Annot.)
Bypass, coronary, and left internal mammary patency using the external Doppler probe, non-invasive assessment of (Benchimol et al.), 347
revascularization, aortocoronary, hemorrhagic myocardial infarction associated with (Lie et al.), 295
surgery, aortocoronary, radionuclide assessment of ventricular performance during propranolol withdrawal prior to (Reduto et al.), 714
coronary, incidence and results of, in connection with coronary ectasia (Aintablian et al.), 309
perioperative myocardial infarction related to (Lim et al.), 463
unusual complications of (Aintablian et al.), 17

C

Ca^{2+} antagonist, cardiovascular, in hypertensive patients, antihypertensive effect of in the absence and presence of beta-adrenergic blockade (Aoki et al.), 218

Cannon waves, more on jugular venous pulse (JVP) tracings and (Tenczer and Littmann), 134 (Letter to Editor)
Carbon-copy pain of myocardial infarction, the (Short and Stowers), 417 (Annot.)
Cardiac catheterization in children with primary pulmonary vascular obstruction, hazards of (Keane, Fyler, and Nadas), 556 (Annot.)
death, sudden, role of acute myocardial infarction in—a statistician's nightmare (Lovegrove and Thompson), 711
dose response relationship for intravenously infused glucagon in normal intact dogs and men (Smitherman, Osborn, and Atkins), 363
electrogram, sensing the (Raber), 275 (Letter to Editor)
Reply (Furman and Hurzeler), 276
specialized conduction system, electrophysiologic—histologic correlation of the in two cases of single ventricle and levotransposition of the great arteries (Schatz, Fenoglio, and Krongrad), 235
surgery, Teflon felt embolism of coronary arteries after: a case report (Bedetti, Siewers, and Dunsford), 802
Cardiologic-neurologic interrelationships (Mick), 700 (Letter to Editor)
Cardiologists, coagulation for (Wessler and Gitel), 811
Cardiomyopathy, echocardiographic diagnosis of left ventricular mural thrombi occurring in (Kramer et al.), 381
in the aged, hypertrophic (Krasnow and Stein), 326
ischemic, noninvasive diagnosis of by fluoroscopic detection of coronary artery calcification (Johnson, Laiken, and Shabetai), 521
Cardiovascular Ca^{2+} antagonist in hypertensive patients, antihypertensive effect of in the absence and presence of beta-adrenergic blockade (Aoki et al.), 218
Care, coronary, conflicts in (O'Rourke), 696 (Annot.)
Catarrhea, lymphatic drainage of the brain and (Gordon), 274 (Letter to Editor)
Catecholamines, circulating, and systolic time intervals in normotensive and hypertensive patients with and without left ventricular hypertrophy (Cousineau, Lapointe, and de Champlain), 227
Catheter, single bipolar electrode, sequential atrioventricular pacing with a (Wald, Waxman, and Bonet), 828 (Annot.)
Catheterization, cardiac, in children with primary pulmonary vascular obstruction, hazards of (Keane, Fyler, and Nadas), 556 (Annot.)
Cations, leukocyte intracellular, in hypertension: effect of antihypertensive drugs (Araoye et al.), 731
Causes of CHD, smoking and the (Aravanis), 423 (Letter to Editor)
Reply (Burch), 423
Cerebral circulation, the, and hypertension—its relevance to the elderly (Jones and Graham), 270 (Annot.)
Charging, testing, and treating, of (Burch), 832 (Annot.)
Chest pain, anginal, predictive value of as an indicator of coronary disease during exercise testing (Weiner et al.), 458
thumping to terminate ventricular tachycardias (Forester), 564 (Letter to Editor)
Reply (Befeler), 564
Children and infants and viral infections, of atherosclerosis in (Burch), 558 (Annot.)
with primary pulmonary vascular obstruction, hazards of cardiac catheterization in (Keane, Fyler, and Nadas), 556 (Annot.)
Circulating catecholamines and systolic time intervals in normotensive and hypertensive patients with and without left ventricular hypertrophy (Cousineau, Lapointe, and de Champlain), 227
Circulation, cerebral, the, and hypertension—its relevance to the elderly (Jones and Graham), 270 (Annot.)
Cirrhosis or receiving propranolol, quinidine pharmacokinetics in patients with (Kessler et al.), 627
Clinical pathologic conference. Pompe's disease presenting as hypertrophic myocardiopathy with Wolff-Parkinson-White syndrome (Bulkley and Hutchins), 246
Clinical pathologic conference—continued
Fatigue, dyspnea and abdominal swelling in a 13-year-old boy (Fowler et al), 533 (CPC)
Complex congenital heart disease: a multiplicity of therapeutic options (Scott, Chandra, and Roberts), 806
Cloth-covered Starr-Edwards aortic and mitral valve prostheses, complications due to cloth wear in and their management in (Shah et al.), 407
Cloth wear in cloth covered Starr-Edwards aortic and mitral valve prostheses, complications due to and their management (Shah et al.), 407
Coagulation for cardiologists (Wessler and Gitel), 811
Common pulmonary vein atresia (Ledbetter, Wells, and Connors), 580
Complex congenital heart disease: a multiplicity of therapeutic options (Scott, Chandra, and Roberts), 806
Complications due to cloth wear in cloth-covered Starr-Edwards aortic and mitral valve prostheses—and their management (Shah et al.), 407
of coronary bypass surgery, unusual (Aintablian et al.), 17
Computer for teaching the proper use of nitroglycerin, recourse to a (Rabinowitz, Lown, and Slack), 703 (Letter to Editor)
Conduction and refractoriness of the His-Purkinje system in man, study of the temporal effects on (Reddy et al.), 316
atrioventricular, 1:1, electrophysiological studies in four patients with atrial flutter with (Kennelly and Lane), 723
block, Wenckebach, ouabain-induced, in canine Purkinje fibers: the role of cycle length and time dependent changes in membrane potential (Anderson and Reiser), 781
disturbances, intraventricular: a review of prevalence, etiology, and progression for ten years within a stable population of Israeli adult males (Siegman-Igra et al.), 669
system(s), cardiac specialized, electrophysiologic-histologic correlation of the in two cases of single ventricle and levotransposition of the great arteries (Schatz, Fenoglio, and Krongrad), 235
in 10 patients with Kawasaki's disease (mucocutaneous lymph node syndrome), clinicopathologic study of (Fujiwara, Kawai, and Hamashima), 744
Conflicts in coronary care (O'Rourke), 696 (Annot.)
Congenital heart disease, complex: a multiplicity of therapeutic options (Scott, Chandra, and Roberts), 806
tricuspid incompetence simulating pulmonary atresia with intact ventricular septum: a report of two cases (Berman et al.), 655
Congestive heart failure, of the venous pumps and (Burch), 697 (Annot.)
Consensus panel, reproducibility of a in the interpretation of coronary angiograms (Sanmarco, Brooks, and Blankenhorn), 430
Constriction, pericardial (Hirschmann), 110
Contractile performance, ventricular, the effect of aging on (Urthaler, Walker, and James), 481
Contraction, myocardial, strength of, as measured by invasive and noninvasive tests, blind study on the relations between the extent of coronary arteriosclerosis and (Starr et al.), 37
Coronary angiograms, reproducibility of a consensus panel in the interpretation of (Sanmarco, Brooks, and Blankenhorn), 430
angiography, organized left atrial mural thrombus demonstrated by (Cipriano and Guthaner), 166
arteriography in young patients with angina pectoris, exercise tests, atrial pacing, and myocardial lactate extraction in relation to (Rajasalmi and Takkunen), 751
arteriosclerosis and the strength of the myocardial contraction as measured by invasive and noninvasive tests, blind study on the relations between the extent of (Starr et al.), 37

Coronary—continued
artery(ies) calcification, noninvasive diagnosis of ischemic cardiomyopathy by fluoroscopic detection of (Johnson, Laiken, and Shabetai), 521
disease, effects of rapid digitalization on total and regional myocardial performance in patients with (Ferlinz, DelVicario, and Aronow), 337
lactate production after left ventricular angiography in (Visioli et al.), 835 (Letter to Editor)
postextrasystolic aortic pressure pulse response in (Hamby et al.), 195
fistulas emptying into left heart chambers (Arani, Greene, and Klocke), 438
left main, disease of the, surgical versus medical treatment in (Graham), 1
occlusion in dogs, protection of ischemic myocardium by whole-body hypothermia after (Abendschein, Tacker, and Babbs), 772
spasm—diagnostic and therapeutic implications (Maseri et al.), 554 (Annot.)
Teflon felt embolism of after cardiac surgery: a case report (Bedetti, Siewers, and Dunsford), 802
to pulmonary artery fistulas (Iskandrian et al.), 605
bypass and left internal mammary patency using the external Doppler probe, non-invasive assessment of (Benchimol et al.), 347
surgery, incidence and results of, in connection with coronary ectasia (Aintablian et al.), 309
perioperative myocardial infarction related to (Lim et al.), 463
unusual complications of (Aintablian et al.), 17
care, conflicts in (O'Rourke), 696 (Annot.)
disease during exercise testing, predictive value of anginal chest pain as an indicator of (Weiner et al.), 458
ectasia: incidence and results of coronary bypass surgery (Aintablian et al.), 309
heart disease—the doctor's dilemma (Mann), 569
smoking and the causes of (Aravanis), 423 (Letter to Editor)
Reply (Burch), 423
statistics, and marathoning (Bassler), 560 (Letter to Editor)
Reply (Milvy), 560
occlusion, acute, effects of verapamil on ventricular rhythm during (Fondacaro, Han, and Yoon), 81
comparison of rhythm and rate-induced myocardial O_2 consumption changes before and after (Kralios, Tsagaris, and Kuida), 372
stenosis: ischemic or non-ischemic factor? (Baroldi), 139
Correction of the pre-ejection period, heart rate (Spodick), 705 (Letter to Editor)
Reply (Burckhardt and Raeder), 706
Counterimmunoelectrophoresis, improved, rapid, sensitive detection of myoglobinemia by in cases of acute myocardial infarction (Hiramori et al.), 187
CPK MB elevations in hypothermia (Maggs), 703 (Letter to Editor)
Reply (Carlson and Rapaport), 703
Critical cycle length inducing rate dependent bundle branch block, variations in the (Kinoshita), 54
Cuff size and BP measurement, more on (Guntheroth), 423 (Letter to Editor)
of, incorrect, error in indirect blood pressure measurement with (Geddes and Whistler), 4
Current practice, in favor of in testing antianginal therapy (Shapiro), 701 (Letter to Editor)
therapy for infective endocarditis. Part II (Casey and Miller), 263
Cycle length and time dependent changes in membrane potential, the role of: ouabain-induced Wenckebach conduction block in canine Purkinje fibers (Anderson and Reiser), 781
critical, inducing rate dependent bundle branch block, variations in the (Kinoshita), 54
Cystic endocardial lesions, unusual (Abu Nassar and Flynn), 836 (Letter to Editor)

D

d-transposition of the great vessels, evaluation of range gated pulsed Doppler echocardiography for detecting pulmonary outflow tract obstruction in (Areias et al.), 467
Death, cardiac, sudden, role of acute myocardial infarction in—a statistician's nightmare (Lovegrove and Thompson), 711
Deficiency, magnesium, diagnosing (Tommaso and Tucci), 274 (Letter to Editor)
Determinant, main, of ECG voltage measurements (Bennett), 835 (Letter to Editor)
Reply (Toshima and Koga), 835
Diabetic angiopathy—its lessons in vascular physiology (McMillan), 401
Diagnosing magnesium deficiency (Tommaso and Tucci), 274 (Letter to Editor)
Diarrhea, quinidine-induced, an approach to control. The noninterference of aluminum hydroxide gel with quinidine sulfate absorption (Romankiewicz et al.), 518
Diastolic filling of the left ventricle, new echocardiographic index of late: the ventricular A wave (Ambrose et al.), 615
impedance waveform, the O-point and (Lababidi), 277 (Letter to Editor)
Reply (Ramos), 279
Digitalization, effects of rapid on total and regional myocardial performance in patients with coronary artery disease (Ferlinz, DelVicario, and Aronow), 337
Digoxin, dose-independent pharmacokinetics of in humans (Ochs et al.), 507
intoxication with specific antibodies, prevention and reversal of (Hess, Scholtysik, and Riesen), 486
Discoveries, of (Burch), 416 (Annot.)
Disease, Lenegre's, in youth (Mathew, Mariano, and Ostrov), 839 (Letter to Editor)
Dissecting aneurysm of the renal artery, isolated (Bakir et al.), 92
Dissertation on a Roast Pig Updated (Schoenfeld), 134 (Letter to Editor)
Diuretics (Lief), 824
Doctor's dilemma—coronary heart disease (Mann), 569
Doppler echocardiography, range gated pulsed, for detecting pulmonary outflow tract obstruction in d-transposition of the great vessels, an evaluation of (Areias et al.), 467
probe, non-invasive assessment of left internal mammary-coronary bypass patency using the external (Benchimol et al.), 347
Dose-independent pharmacokinetics of digoxin in humans (Ochs et al.), 507
Drainage of the brain and catarrhea, lymphatic (Gordon), 274 (Letter to Editor)
Dressler's syndrome in the distant post-infarction period, pleural effusion as a manifestation of (Domby and Whitcomb), 243
Dyspnea, fatigue and abdominal swelling in a 13-year-old boy (Fowler et al.), 533 (CPC)
Dystrophica myotonia (myotonia atrophica), of the myocardium and (Burch), 272 (Annot.)

E

Early ECG tracings, quality of (Kleyn), 421 (Letter to Editor)
Echocardiographic and angiographic features of infective aneurysm of the left ventricle (Saksena et al.), 384
detection of a subannular aortic aneurysm (Alter et al.), 525
diagnosis of left ventricular mural thrombi occurring in cardiomyopathy (Kramer et al.), 381
electrocardiographic and vectorcardiographic correlation in atrial flutter (Zoneraich et al.), 286
evaluation of porcine heterograft valves in the mitral and aortic positions (Harston, Robertson, and Friesinger), 448

Echocardiographic—continued
index of late diastolic filling of the left ventricle, a new: the ventricular A wave (Ambrose et al.), 615
mitral valve motion, effect of transducer placement on (Markiewicz, London, and Popp), 555 (Annot.)
pattern of posterior wall endocardial motion in aortic stenosis, distinctive (Sheppard et al.), 9
Echocardiographically demonstrated tricuspid valve prolapse, occurrence and significance of (Werner, Schiller, and Prasquier), 180
Echocardiography in ischemic heart disease: present status and future prospectives (Massie, Kleid, and Schiller), 543
range gated pulsed Doppler, an evaluation of for detecting pulmonary outflow tract obstruction in d-transposition of the great vessels (Areias et al.), 467
Ectasia, coronary: incidence and results of coronary bypass surgery (Aintablian et al.), 309
Effect of aging on ventricular contractile performance, the (Urthaler, Walker, and James), 481
Effusion, pleural, as a manifestation of Dressler's syndrome in the distant postinfarction period (Domby and Whitcomb), 243
Elderly, relevance of hypertension and the cerebral circulation to the (Jones and Graham), 270 (Annot.)
Electrocardiogram (ECG), ischemic myocardial disease and alterations in the (Halbersleben), 276 (Letter to Editor)
Electrocardiographic, vectorcardiographic and echocardiographic correlation in atrial flutter (Zoneraich et al.), 286
tracings, quality of early (Kleyn), 421 (Letter to Editor)
voltage measurements, main determinant of (Bennett), 835 (Letter to Editor)
Reply (Toshima and Koga), 835
Electrode catheter, single bipolar, sequential atrioventricular pacing with a (Wald, Waxman, and Bonet), 828 (Annot.)
Electrogram, cardiac, sensing the (Raber), 275 (Letter to Editor)
Reply (Furman and Hurzeler), 276
Electrophysiologic–histologic correlation of the cardiac specialized conduction system in two cases of single ventricle and levotransposition of the great arteries (Schatz, Fenoglio, and Krongrad), 235
Electrophysiological studies in four patients with atrial flutter with 1:1 atrioventricular conduction (Kennelly and Lane), 723
Elevations, CPK MB, in hypothermia (Maggs), 703 (Letter to Editor)
Reply (Carlson and Rapaport), 703
Embolism, Teflon felt, of coronary arteries after cardiac surgery: a case report (Bedetti, Siewers, and Dunsford), 802
Endocardial fibroelastosis: myocardial and vascular alterations associated with viral-like nuclear particles (Factor), 791
lesions, unusual cystic (Abu Nassar and Flynn), 836 (Letter to Editor)
motion in aortic stenosis, posterior wall, distinctive echocardiographic pattern of (Sheppard et al.), 9
Endocarditis, bacterial, prevention of. Infective endocarditis Part III (Lowy and Steigbigel), 689
infective, in heroin addicts: epidemiological observations and some unusual cases (Lange et al.), 144
new diagnostic techniques (Miller and Casey), 123
Part II. Current therapy (Casey and Miller), 263
Part III. Prevention of bacterial endocarditis (Lowy and Steigbigel), 689
Q fever, observations on (Turck), 564 (Letter to Editor)
Reply (Applefeld), 566
Epicardial S-T segment elevation, limited correlation of ultrastructure with: transmural gradients of experimental myocardial ischemia (Lamberti et al.), 496
Ergotamine-induced ischemia, nitroprusside reversal of (Whitsett, Myers, and Hartsuck), 700 (Letter to Editor)
Essential hypertension, hemodynamics of in young subjects (Fouad et al.), 646
thrombocythemia, arterial thrombosis in (Hussain et al.), 31
Exaggerated impedance waveform—a noninvasive assist (Leschin and Schnitzer), 275 (Letter to Editor)
Reply (Ramos), 275
Exercise-induced or augmented ventricular arrhythmias, effect of a new beta-blocking agent, levo-bunolol, on (Shapiro and Park), 417 (Annot.)
testing, predictive value of anginal chest pain as an indicator of coronary disease during (Weiner et al.), 458
tests, atrial pacing, and myocardial lactate extraction in relation to coronary arteriography in young patients with angina pectoris (Rajasalmi and Takkunen), 751
tolerance in patients with angina pectoris, prolonged benefit of nitroglycerin ointment on (Karsh et al.), 587

F

Failure, heart, congestive, of the venous pumps and (Burch), 697 (Annot.)
Fallot, tetralogy of, additional angiocardiograms for (Siassi, Aryanpur, and Shakibi), 135 (Letter to Editor)
Familial myocardiopathy, idiopathic, in three generations: A clinical and pathologic study (Ross et al.), 170
Fatigue, dyspnea and abdominal swelling in a 13-year-old boy (Fowler et al.), 533 (CPC)
Favorable effects of prolonged nitroglycerin infusion in patients with acute myocardial infarction (Derrida, Sal, and Chiche), 833 (Annot.)
Fever, Q, endocarditis, observations on (Turck), 564 (Letter to Editor)
Reply (Applefeld), 566
Fibrillation or recurrent ventricular tachycardia, long term follow-up of aneurysmectomy for (Sami et al.), 303
Fibroelastosis, endocardial: myocardial and vascular alterations associated with viral-like nuclear particles (Factor), 791
Fistulas, coronary artery, emptying into left heart chambers (Arani, Greene, and Klocke), 438
to pulmonary artery (Iskandrian et al.), 605
Fluoroscopic detection of coronary artery calcification, noninvasive diagnosis of ischemic cardiomyopathy by (Johnson, Laiken, and Shabetai), 521
Flutter, atrial. Electrocardiographic, vectorcardiographic and echocardiographic correlation (Zoneraich et al.), 286
with 1:1 atrioventricular conduction, electrophysiological studies in four patients with (Kennelly and Lane), 723
of the mitral valve, systolic (Sze, Nanda, and Gramiak), 157

G

Ganglion, left stellate, and the long Q-T syndrome, another link between the (Crampton), 130 (Annot.)
Gas-induced MI, acid (Puletti et al.), 561 (Letter to Editor)
Gel, aluminum hydroxide, noninterference of with quinidine sulfate absorption: an approach to control quinidine-induced diarrhea (Romankiewicz et al.), 518
Gimbels, an alternate view from in hypertension control (Alderman, Seligmann, and Davis), 421 (Letter to Editor)
Reply (Sackett et al.), 422
Glucagon, intravenously infused, in normal intact dogs and men, cardiac dose response relationship for (Smitherman, Osborn, and Atkins), 363
Great vessels, d-transposition of, evaluation of range gated pulsed Doppler echocardiography for detecting pulmonary outflow tract obstruction in (Areias et al.), 467

H

Hazard, potential, of the programmable pacemaker (Gould and Reddy), 704 (Letter to Editor)
Heart chambers, left, coronary artery fistulas emptying into (Arani, Greene, and Klocke), 438
disease, complex congenital: a multiplicity of therapeutic options (Scott, Chandra, and Roberts), 806
coronary—the doctor's dilemma (Mann), 569
ischemic, echocardiography in: present status and future prospectives (Massie, Kleid, and Schiller), 543
failure, congestive, of the venous pumps and (Burch), 697 (Annot.)
rate and blood pressure response to amyl nitrite, isoproterenol, and standing before and during acute beta-adrenergic blockade with intravenous propranolol, comparison of (Niarchos, Tahmooressi, and Tarazi), 47
correction of pre-ejection period (Spodick), 705 (Letter to Editor)
Reply (Burckhardt and Raeder), 706
norepinephrine and ouabain on myocardial oxygen consumption and inotropic state in dogs, comparative influence of (Boerth, Hammermeister, and Warbasse), 355
valves, prosthetic, management of anticoagulation during noncardiac operations in patients with. A prospective study (Katholi, Nolan, and McGuire), 163
Hemodynamic effects of hyaluronidase in patients with acute myocardial infarction, evaluation of (Ray et al.), 700 (Letter to Editor)
Hemodynamics of essential hypertension in young subjects (Fouad et al.), 646
peripheral, in anephric patients with hypertension (Vyden et al.), 203
Hemolysis, intravascular, in the late course of aortic valve replacement. Relation to valve type, size, and function (Dale and Myhre), 24
Hemorrhagic myocardial infarction associated with aorto-coronary bypass revascularization (Lie et al.), 295
Heparin, low-dose, or smoking–effect of in preventing thromboembolism after myocardial infarction (Emerson), 129 (Annot.)
Heroin addicts, infective endocarditis in: epidemiological observations and some unusual cases (Lange et al.), 144
Heterograft valves, porcine, in the mitral and aortic positions, echocardiographic evaluation of (Harston, Robertson, and Friesinger), 448
His-Purkinje system in man, study of the temporal effects on conduction and refractoriness of the (Reddy et al.), 316
Hyaluronidase in patients with acute myocardial infarction, evaluation of the hemodynamic effects of (Ray et al.), 700 (Letter to Editor)
Hyperaldosteronism, the treatment of low-renin ("primary") (Ferriss et al.), 97
Hyperlipidemic patients, effect of probucol in during two years of administration (Parsons), 213
Hypertension and the cerebral circulation—its relevance to the elderly (Jones and Graham), 270 (Annot.)
control: an alternate view from Gimbels (Alderman, Seligmann, and Davis), 421 (Letter to Editor)
Reply (Sackett et al.), 422
essential, hemodynamics of in young subjects (Fouad et al.), 646
leukocyte intracellular cations in: effect of antihypertensive drugs (Araoye et al.), 731
orthostatic, in normotensives and borderline hypertensive patients (Safar), 563 (Letter to Editor)
peripheral hemodynamics in anephric patients with (Vyden et al.), 203
renovascular, renal vein renin and saralasin testing in (MacCarthy and Stokes), 697 (Annot.)
Hypertensive and normotensive patients with and without left ventricular hypertrophy, circulating catecholamines and systolic time intervals in (Cousineau, Lapointe, and de Champlain), 227
Hypertensive—continued
patients, antihypertensive effect of cardiovascular Ca^{2+} antagonist in in the absence and presence of beta-adrenergic blockade (Aoki et al.), 218
borderline, and normotensives, orthostatic hypertension in (Safar), 563 (Letter to Editor)
Hypertrophic cardiomyopathy in the aged (Krasnow and Stein), 326
myocardiopathy with Wolff-Parkinson-White syndrome, Pompe's disease presenting as (Bulkley and Hutchins), 246
Hypertrophy, left ventricular, circulating catecholamines and systolic time intervals in normotensive and hypertensive patients with and without (Cousineau, Lapointe, and de Champlain), 227
Hypomagnesemia and prolonged repolarization (Suresh N., and Sainani), 702 (Letter to Editor)
Hypotension, adverse reactions to methyldopa with particular reference to (Lawson, Gloss, and Jick), 572
Hypothermia, CPK MB elevations in (Maggs), 703 (Letter to Editor)
Reply (Carlson and Rapaport), 703
whole-body, protection of ischemic myocardium by after coronary artery occlusion in dogs (Abendschein, Tacker, and Babbs), 772
Hypoxemia, arterial, following the administration of sublingual nitroglycerin (Kopman et al.), 444

I

Idiopathic familial myocardiopathy in three generations: A clinical and pathologic study (Ross et al.), 170
pericarditis, acute, and calcific aortic stenosis: unusual fatal disease combination (Wheatley), 87
Impedance waveform, diastolic, the O-point and (Lababidi), 277 (Letter to Editor)
Reply (Ramos), 279
exaggerated—a noninvasive assist (Leschin and Schnitzer), 275 (Letter to Editor)
Reply (Ramos), 275
Importance of R on T phenomenon, the (Chou and Wenzke), 191
Incompetence, congenital tricuspid, simulating pulmonary atresia with intact ventricular septum: a report of two cases (Berman et al.), 655
Indirect blood pressure measurement with the incorrect size of cuff, the error in (Geddes and Whistler), 4
Infants and children and viral infections, of atherosclerosis in (Burch), 558 (Annot.)
Infarction, acute myocardial, blood pressure levels in (Gibson), 475
evaluation of the hemodynamic effects of hyaluronidase in patients with (Ray et al.), 700 (Letter to Editor)
favorable effects of prolonged nitroglycerin infusion in patients with (Derrida, Sal, and Chiche), 833 (Annot.)
in sudden cardiac death, role of—a statistician's nightmare (Lovegrove and Thompson), 711
rapid, sensitive detection of myoglobinemia by improved counterimmunoelectrophoresis in cases of (Hiramori et al.), 187
serum myoglobin in: clinical study and review of the literature (Varki et al.), 680
the temperature course in (Löfmark, Nordlander, and Orinius), 153
myocardial, hemorrhagic, associated with aortocoronary bypass revascularization (Lie et al.), 295
in young vs old male rats: Pathophysiologic changes (Wexler), 70
pathogenesis of (Davies et al.), 561 (Letter to Editor)
Reply (Baroldi), 562
perioperative, related to coronary bypass surgery (Lim et al.), 463
preventing thromboembolism after: effect of low-dose heparin or smoking (Emerson), 129 (Annot.)

Infarction, myocardial—continued
the carbon-copy pain of (Short and Stowers), 417 (Annot.)
Infections, viral, of atherosclerosis in infants and children and (Burch), 558 (Annot.)
Infective aneurysm of the left ventricle: angiographic and echocardiographic features (Saksena et al.), 384
endocarditis in heroin addicts: epidemiological observations and some unusual cases (Lange et al.), 144
new diagnostic techniques (Miller and Casey), 123
Part II. Current therapy (Casey and Miller), 263
Part III. Prevention of bacterial endocarditis (Lowy and Steigbigel), 689
Inotropic state and myocardial oxygen consumption in dogs, comparative influence of ouabain, norepinephrine and heart rate on (Boerth, Hammermeister, and Warbasse), 355
Insufficiency, mitral, mitral valve repair for significant (Kay et al.), 253
Intoxication, digoxin, prevention and reversal of with specific antibodies (Hess, Scholtysik, and Riesen), 486
Intracardiac phonocardiography, a study with. Origin of the basal systolic murmurs in mitral stenosis (Kambe et al.), 512
Intracellular cations, leukocyte, in hypertension: effect of antihypertensive drugs (Araoye et al.), 731
Intractable angina, assessment of perhexiline maleate in angiographically proven: a double-blind trial (Mir and Kafetzakis), 350
Intramural ramification of the left bundle branch (Rossi), 271 (Annot.)
Intraventricular conduction disturbances: a review of prevalence, etiology, and progression for ten years within a stable population of Israeli adult males (Siegman-Igra et al.), 669
Intravascular hemolysis in the late course of aortic valve replacement. Relation to valve type, size, and function (Dale and Myhre), 24
Intravenous nitroglycerin (Cottrell and Turndorf), 550
quinidine, a reevaluation of (Woo and Greenblatt), 829 (Annot.)
Intravenously infused glucagon in normal intact dogs and men, cardiac dose response relationship for (Smitherman, Osborn, and Atkins), 363
Ischemia, ergotamine-induced, nitroprusside reversal of (Whitsett, Myers, and Hartsuck), 700 (Letter to Editor)
myocardial, asymptomatic or silent (Liss), 838 (Letter to Editor)
Reply (Cohn), 838
experimental, transmural gradients of: limited correlation of ultrastructure with epicardial S-T segment elevation (Lamberti et al.), 496
population screening for (Rose), 427
Ischemic cardiomyopathy, noninvasive diagnosis of by fluoroscopic detection of coronary artery calcification (Johnson, Laiken, and Shabetai), 521
heart disease, echocardiography in: present status and future prospectives (Massie, Kleid, and Schiller), 543
myocardial disease and alterations in the ECG (Halbersleben), 276 (Letter to Editor)
myocardium, protection of by whole-body hypothermia after coronary artery occlusion in dogs, (Abendschein, Tacker, and Babbs), 772
or non-ischemic factor: coronary stenosis (Baroldi), 139
ISDN, oral-long-acting nitrite (Pascal), 424 (Letter to Editor)
Isoproterenol, amyl nitrite, and standing before and during acute beta-adrenergic blockade with intravenous propranolol, comparison of heart rate and blood pressure response to (Niarchos, Tahmooressi, and Tarazi), 47
Israeli adult males, a review of prevalence, etiology, and progression of intraventricular conduction disturbances for ten years within a stable population of (Siegman-Igra et al.), 669

J

Jugular venous pulse (JVP) tracings and cannon waves, more on (Tenczer and Littmann), 134 (Letter to Editor)

K

Kawasaki's disease (mucocutaneous lymph node syndrome), clinicopathologic study of the conduction systems in 10 patients with (Fujiwara, Kawai, and Hamashima), 744

L

Lactate extraction, myocardial, exercise tests, and atrial pacing in relation to coronary arteriography in young patients with angina pectoris (Rajasalmi and Takkunen), 751
production after left ventricular angiography in coronary artery disease (Visioli et al.), 835 (Letter to Editor)
Left bundle branch, intramural ramification of the (Rossi), 271 (Annot.)
heart chambers, coronary artery fistulas emptying into (Arani, Greene, and Klocke), 438
main coronary artery, surgical versus medical treatment in disease of the (Graham), 1
stellate ganglion and the long Q-T syndrome, another link between the (Crampton), 130 (Annot.)
ventricular aneurysmectomy, an evaluation of the results of: use of a simplified method for analysis of the left ventriculogram (Smulyan et al.), 596
angiography, lactate production after in coronary artery disease (Visioli et al.), 835 (Letter to Editor)
function in beta-thalassemia and the effect of multiple transfusions (Lewis et al.), 636
hypertrophy, circulating catecholamines and systolic time intervals in normotensive and hypertensive patients with and without (Cousineau, Lapointe, and de Champlain), 227
ventriculogram, use of a simplified method for analysis of the: an evaluation of the results of left ventricular aneurysmectomy (Smulyan et al.), 596
Lenegre's disease in youth (Mathew, Mariano, and Ostrov), 839 (Letter to Editor)
Lesions, unusual cystic endocardial (Abu Nassar and Flynn), 836 (Letter to Editor)
Leukocyte function after aortic valve replacement (Kvarstein and Dale), 624
intracellular cations in hypertension: effect of antihypertensive drugs (Araoye et al.), 731
Levo-bunolol, new beta-blocking agent, the effect of on exercise-induced or augmented ventricular arrhythmias (Shapiro and Park), 417 (Annot.)
Levotransposition of the great arteries, electrophysiologic—histologic correlation of the cardiac specialized conduction system in two cases of single ventricle and (Schatz,, Fenoglio, and Krongrad), 235
Long-acting nitrite-oral ISDN (Pascal), 424 (Letter to Editor)
Low-renin ("primary") hyperaldosteronism, the treatment of (Ferriss et al.), 97
Lymph node syndrome, mucocutaneous (Kawasaki's disease), clinicopathologic study of the conduction systems in 10 patients with (Fujiwara, Kawai, and Hamashima), 744
Lymphatic drainage of the brain and catarrhea (Gordon), 274 (Letter to Editor)

M

Magnesium deficiency, diagnosing (Tommaso and Tucci), 274 (Letter to Editor)
Main determinant of ECG voltage measurements (Bennett), 835 (Letter to Editor)
Reply (Toshima and Koga), 835

Maleate, perhexiline, assessment of in angiographically proven intractable angina: a double-blind trial (Mir and Kafetzakis), 350
Mammary, left internal, and coronary bypass patency using the external Doppler probe, non-invasive assessment of (Benchimol et al.), 347
Marathoning, statistics, and CHD (Bassler), 560 (Letter to Editor)
Reply (Milvy), 560
MB elevations, CPK, in hypothermia (Maggs), 703 (Letter to Editor)
Reply (Carlson and Rapaport), 703
Measurement(s), BP, and cuff size, more on (Guntheroth), 423 (Letter to Editor)
ECG voltage, main determinant of (Bennett), 835 (Letter to Editor)
Reply (Toshima and Koga), 835
Medical versus surgical treatment in disease of the left main coronary artery (Graham), 1
Membrane potential, role of cycle length and time dependent changes in: ouabain-induced Wenckebach conduction block in canine Purkinje fibers (Anderson and Reiser), 781
Methyldopa, adverse reactions to with particular reference to hypotension (Lawson, Gloss, and Jick), 572
Middle-aged men, significance of P wave terminal force in presumably healthy (Forfang and Erikssen), 739
Migraine and the mitral valve prolapse syndrome (Litman and Friedman), 610
Mitral and aortic positions, echocardiographic evaluation of porcine heterograft valves in the (Harston, Robertson, and Friesinger), 448
valve prostheses, Starr-Edwards, cloth covered, complications due to cloth wear in and their management in (Shah et al.), 407
insufficiency, mitral valve repair for significant (Kay et al.), 253
stenosis, origin of the basal systolic murmurs in. A study with intracardiac phonocardiography (Kambe et al.), 512
valve motion, echocardiographic, effect of transducer placement on (Markiewicz, London, and Popp), 555 (Annot.)
prolapse syndrome and migraine (Litman and Friedman), 610
ventricular pre-excitation and prolonged Q-T interval syndromes in a patient with (Mirvis and Erwin), 529
repair for significant mitral insufficiency (Kay et al.), 253
systolic flutter of the (Sze, Nanda, and Gramiak), 157
More selective resuscitation, towards (Peatfield), 698 (Annot.)
Mucocutaneous lymph node syndrome (Kawasaki's disease), clinicopathologic study of the conduction systems in 10 patients with (Fujiwara, Kawai, and Hamashima), 744
Mural thrombi, left ventricular, occurring in cardiomyopathy, echocardiographic diagnosis of (Kramer et al.), 381
thrombus, organized left atrial, demonstrated by coronary angiography (Cipriano and Guthaner), 166
Mutton's law (Fred), 273 (Annot.)
Myocardial and vascular alterations associated with viral-like nuclear particles in endocardial fibroelastosis (Factor), 791
contraction, strength of, as measured by invasive and noninvasive tests, blind study on the relations between the extent of coronary arteriosclerosis and (Starr et al.), 37
disease, ischemic, and alterations in the ECG (Halberslebben), 276 (Letter to Editor)
steroids in (Giorgianni), 274 (Letter to Editor)
infarction (MI), acid gas-induced (Puletti et al.), 561 (Letter to Editor)
acute, blood pressure levels in (Gibson), 475
evaluation of the hemodynamic effects of hyaluronidase in patients with (Ray et al.), 700 (Letter to Editor)
Myocardial infarction, acute—continued
favorable effects of prolonged nitroglycerin infusion in patients with (Derrida, Sal, and Chiche), 833 (Annot.)
in sudden cardiac death, role of—a statistician's nightmare (Lovegrove and Thompson), 711
rapid, sensitive detection of myoglobinemia by improved counterimmunoelectrophoresis in cases of (Hiramori et al.), i87
serum myoglobin in: a clinical study and review of the literature (Varki et al.), 680
the temperature course in (Löfmark, Nordlander, and Orinius), 153
hemorrhagic, associated with aortocoronary bypass revascularization (Lie et al.), 295
in young vs old male rats: Pathophysiologic changes (Wexler), 70
pathogenesis of (Davies et al.), 561 (Letter to Editor)
Reply (Baroldi), 562
perioperative, related to coronary bypass surgery (Lim et al.), 463
preventing thromboembolism after: effect of low-dose heparin or smoking (Emerson), 129 (Annot.)
the carbon-copy pain of (Short and Stowers), 417 (Annot.)
ischemia, asymptomatic or silent (Liss), 838 (Letter to Editor)
Reply (Cohn), 838
experimental, transmural gradients of: limited correlation of ultrastructure with epicardial S-T segment elevation (Lamberti et al.), 496
population screening for (Rose), 427
lactate extraction, exercise tests, and atrial pacing in relation to coronary arteriography in young patients with angina pectoris (Rajasalmi and Takkunen), 751
oxygen consumption and inotropic state in dogs, comparative influence of ouabain, norepinephrine and heart rate on (Boerth, Hammermeister, and Warbasse), 355
changes before and after coronary occlusion, comparison of rhythm and rate-induced (Kralios, Tsagaris, and Kuida), 372
performance, total and regional, effects of rapid digitalization on in patients with coronary artery disease (Ferlinz, DelVicario, and Aronow), 337
Myocardiopathy, hypertrophic, with Wolff-Parkinson-White syndrome, Pompe's disease presenting as (Bulkley and Hutchins), 246
idiopathic familial, in three generations: A clinical and pathologic study (Ross et al.), 170
Myocardium and myotonia atrophica (*dystrophica myotonia*), of the (Burch), 272 (Annot.)
ischemic, protection of by whole-body hypothermia after coronary artery occlusion in dogs (Abendschein, Tacker, and Babbs), 772
Myoglobin, serum, in acute myocardial infarction: a clinical study and review of the literature (Varki et al.), 680
tests by RIA (Roberts), 420 (Letter to Editor)
Myoglobinemia, rapid, sensitive detection of by improved counterimmunoelectrophoresis in cases of acute myocardial infarction (Hiramori et al.), 187
Myotonia atrophica (dystrophica myotonia), of the myocardium and (Burch), 272 (Annot.)

N

Neurologic–cardiologic interrelationships (Mick), 700 (Letter to Editor)
Nitrite, long-acting-oral ISDN (Pascal), 424 (Letter to Editor)
Nitroglycerin infusion, prolonged, in patients with acute myocardial infarction, favorable effects of (Derrida, Sal, and Chiche), 833 (Annot.)
intravenous (Cottrell and Turndorf), 550
ointment, prolonged benefit of on exercise tolerance in patients with angina pectoris (Karsh et al.), 587

Nitroglycerin--continued
proper use of, recourse to a computer for teaching (Rabinowitz, Lown, and Slack), 703 (Letter to Editor)
sublingual, arterial hypoxemia following the administration of (Kopman et al.), 444
Nitroprusside reversal of ergotamine-induced ischemia (Whitsett, Myers, and Hartsuck), 700 (Letter to Editor)
Nocturnal angina (Luceri), 421 (Letter to Editor)
Noncardiac operations in patients with prosthetic heart valves, management of anticoagulation during. A prospective study (Katholi, Nolan, and McGuire), 163
Non-invasive assessment of left internal mammary-coronary bypass patency using the external Doppler probe (Benchimol et al.), 347
assist—exaggerated impedance waveform, a (Leschin and Schnitzer), 275 (Letter to Editor)
Reply (Ramos), 275
diagnosis of ischemic cardiomyopathy by fluoroscopic detection of coronary artery calcification (Johnson, Laiken, and Shabetai), 521
is non-invasive, of how (Burch), 130 (Annot.)
Norepinephrine, ouabain, and heart rate on myocardial oxygen consumption and inotropic state in dogs, comparative influence of (Boerth, Hammermeister, and Warbasse), 355
Normotensive(s) and borderline hypertensive patients, orthostatic hypertension in (Safar), 563 (Letter to Editor)
and hypertensive patients with and without left ventricular hypertrophy, circulating catecholamines and systolic time intervals in (Cousineau, Lapointe, and de Champlain), 227
Nuclear particles, viral-like, myocardial and vascular alterations associated with in endocardial fibroelastosis (Factor), 791

O

O-point and diastolic impedance waveform, the (Lababidi), 277 (Letter to Editor)
Reply (Ramos), 279
Observations on Q fever endocarditis (Turck), 564 (Letter to Editor)
Reply (Applefeld), 566
Occlusion, coronary, acute, effects of verapamil on ventricular rhythm during (Fondacaro, Han, and Yoon), 81
artery, in dogs, protection of ischemic myocardium by whole-body hypothermia after (Abendschein, Tacker, and Babbs), 772
comparison of rhythm and rate-induced myocardial O_2 consumption changes before and after (Kralios, Tsagaris, and Kuida), 372
Of atherosclerosis in infants and children and viral infections (Burch), 558 (Annot.)
discoveries (Burch), 416 (Annot.)
how non-invasive *is* non-invasive? (Burch), 130 (Annot.)
testing, treating, and charging (Burch), 832 (Annot.)
the myocardium and myotonia atrophica (*Dystrophica myotonia*) (Burch), 272 (Annot.)
the venous pumps and congestive heart failure (Burch), 697 (Annot.)
Ointment, nitroglycerin, prolonged benefit of on exercise tolerance in patients with angina pectoris (Karsh et al.), 587
Oral ISDN-long-acting nitrite (Pascal), 424 (Letter to Editor)
Orthostatic hypertension in normotensives and borderline hypertensive patients (Safar), 563 (Letter to Editor)
Ouabain-induced Wenckebach conduction block in canine Purkinje fibers: the role of cycle length and time dependent changes in membrane potential (Anderson and Reiser), 781
norepinephrine and heart rate on myocardial oxygen consumption and inotropic state in dogs, comparative influence of (Boerth, Hammermeister, and Warbasse), 355
Outflow tract obstruction, pulmonary, in d-transposition of the great vessels, evaluation of range gated pulsed Doppler echocardiography for detecting (Areias et al.), 467
O_2 consumption changes, myocardial, before and after coronary occlusion, comparison of rhythm and rate-induced (Kralios, Tsagaris, and Kuida), 372

P

P wave terminal force in presumably healthy middle-aged men, significance of (Forfang and Erikssen), 739
Pacemaker, programmable, potential hazard of the (Gould and Reddy), 704 (Letter to Editor)
Pacing, atrial, exercise tests, and myocardial lactate extraction in relation to coronary arteriography in young patients with angina pectoris (Rajasalmi and Takkunen), 751
from the vicinity of the A-V node, exposure of concealed right bundle branch block in Wolff-Parkinson-White type B by (Garcia et al.), 662
sequential atrioventricular, with a single bipolar electrode catheter (Wald, Waxman and Bonet), 828 (Annot.)
Pain of myocardial infarction, the carbon-copy (Short and Stowers), 417 (Annot.)
Patency, left internal mammary-coronary bypass, non-invasive assessment of using the external Doppler probe (Benchimol et al.), 347
Pathogenesis of myocardial infarction (Davies et al.), 561 (Letter to Editor)
Reply (Baroldi), 562
Pectoris, angina, exercise tests, atrial pacing, and myocardial lactate extraction in relation to coronary arteriography in young patients with (Rajasalmi and Takkunen), 751
prolonged benefit of nitroglycerin ointment on exercise tolerance in patients with (Karsh et al.), 587
spontaneous changes in the severity of (Short and Stowers), 415 (Annot.)
Perhexiline maleate in angiographically proven intractable angina, assessment of: a double-blind trial (Mir and Kafetzakis), 350
Pericardial constriction (Hirschmann), 110
Pericarditis, idiopathic, acute, and calcific aortic stenosis: unusual fatal disease combination (Wheatley), 87
Perioperative myocardial infarction related to coronary bypass surgery (Lim et al.), 463
Peripheral hemodynamics in anephric patients with hypertension (Vyden et al.), 203
Pharmacokinetics, dose-independent, of digoxin in humans (Ochs et al.), 507
quinidine, in patients with cirrhosis or receiving propranolol (Kessler et al.), 627
Phenomenon, the importance of R on T (Chou and Wenzke), 191
Phonocardiography, intracardiac, a study with. Origin of the basal systolic murmurs in mitral stenosis (Kambe et al.), 512
Physiology, vascular, lessons of diabetic angiopathy in (McMillan), 401
Pig, Roast, Dissertation on a, updated (Schoenfeld), 134 (Letter to Editor)
Pleural effusion as a manifestation of Dressler's syndrome in the distant post-infarction period (Domby and Whitcomb), 243
Pompe's disease presenting as hypertrophic myocardiopathy with Wolff-Parkinson-White syndrome (Bulkley and Hutchins), 246
Population screening for myocardial ischemia (Rose), 427
Porcine heterograft valves in the mitral and aortic positions, echocardiographic evaluation of (Harston, Robertson, and Friesinger), 448
Postextrasystolic aortic pressure pulse response in coronary artery disease (Hamby et al.), 195
Post-infarction period, distant, pleural effusion as a manifestation of Dressler's syndrome in the (Domby and Whitcomb), 243

Posterior wall endocardial motion in aortic stenosis, distinctive echocardiographic pattern of (Sheppard et al.), 9
Potential hazard of the programmable pacemaker (Gould and Reddy), 704 (Letter to Editor)
Predictive value of anginal chest pain as an indicator of coronary disease during exercise testing (Weiner et al.), 458
Pre-ejection period, heart rate correction of (Spodick), 705 (Letter to Editor)
Reply (Burckhardt and Raeder), 706
Pre-excitation, ventricular, and prolonged Q-T interval syndromes in a patient with mitral valve prolapse (Mirvis and Erwin), 529
Pressure levels, blood, in acute myocardial infarction (Gibson), 475
measurement, blood, indirect, with the incorrect size of cuff, the error in (Geddes and Whistler), 4
pulse response, postextrasystolic aortic, in coronary artery disease (Hamby et al.), 195
Prevention and reversal of digoxin intoxication with specific antibodies (Hess, Scholtysik, and Riesen), 486
of bacterial endocarditis. Infective endocarditis Part III (Lowy and Steigbigel), 689
Primary (low-renin) hyperaldosteronism, the treatment of (Ferriss et al.), 97
pulmonary vascular obstruction, hazards of cardiac catheterization in children with (Keane, Fyler, and Nadas), 556 (Annot.)
Probucol in hyperlipidemic patients during two years of administration, effect of (Parsons), 213
Programmable pacemaker, potential hazard of the (Gould and Reddy), 704 (Letter to Editor)
Prolapse syndrome, mitral valve, and migraine (Litman and Friedman), 610
valve, tricuspid, occurrence and significance of echocardiographically demonstrated (Werner, Schiller, and Prasquier), 180
Prolonged nitroglycerin infusion in patients with acute myocardial infarction, favorable effects of (Derrida, Sal, and Chiche), 833 (Annot.)
repolarization and hypomagnesemia (Suresh N., and Sainani), 702 (Letter to Editor)
Proper use of nitroglycerin, recourse to a computer for teaching the (Rabinowitz, Lown, and Slack), 703 (Letter to Editor)
Propranolol, intravenous, comparison of heart rate and blood pressure response to amyl nitrite, isoproterenol, and standing before and during acute beta-adrenergic blockade with (Niarchos, Tahmooressi, and Tarazi), 47
quinidine pharmacokinetics in patients with cirrhosis or receiving (Kessler et al.), 627
withdrawal prior to aortocoronary bypass surgery, radionuclide assessment of ventricular performance during (Reduto et al.), 714
Prostheses, valve, complications due to cloth wear in cloth-covered Starr-Edwards aortic and mitral, and their management (Shah et al.), 407
Prosthetic heart valves, management of anticoagulation during noncardiac operations in patients with. A prospective study (Katholi, Nolan, and McGuire), 163
Pulmonary artery fistulas, coronary artery to (Iskandrian et al.), 605
atresia, congenital tricuspid incompetence simulating with intact ventricular septum: a report of two cases (Berman et al.), 655
outflow tract obstruction in d-transposition of the great vessels, evaluation of range gated pulsed Doppler echocardiography for detecting (Areias et al.), 467
vascular obstruction, primary, hazards of cardiac catheterization in children with (Keane, Fyler, and Nadas), 556 (Annot.)
vein atresia, common (Ledbetter, Wells, and Connors), 580
Pulse response, postextrasystolic aortic pressure, in coronary artery disease (Hamby et al.), 195
Pulse—continued
tracings, jugular venous (JVP) and cannon waves, more on (Tenczer and Littmann), 134 (Letter to Editor)
Pumps, venous, of the and congestive heart failure (Burch), 697 (Annot.)
Purkinje fibers, canine, ouabain-induced Wenckebach conduction block in: the role of cycle length and time dependent changes in membrane potential (Anderson and Reiser), 781

Q

Q fever endocarditis, observations on (Turck), 564 (Letter to Editor)
Reply (Applefeld), 566
Q-T interval syndrome, prolonged, and ventricular pre-excitation syndrome in a patient with mitral valve prolapse (Mirvis and Erwin), 529
syndrome, long, another link between the left stellate ganglion and the (Crampton), 130 (Annot.)
Quality of early ECG tracings (Kleyn), 421 (Letter to Editor)
Quinidine-induced diarrhea, an approach to control. The noninterference of aluminum hydroxide gel with quinidine sulfate absorption (Romankiewicz et al.), 518
intravenous, a reevaluation of (Woo and Greenblatt), 829 (Annot.)
pharmacokinetics in patients with cirrhosis or receiving propranolol (Kessler et al.), 627
sulfate absorption, the noninterference of aluminum hydroxide gel with: an approach to control quinidine-induced diarrhea (Romankiewicz et al.), 518

R

R on T phenomenon, the importance of (Chou and Wenzke), 191
Radionuclide assessment of ventricular performance during propranolol withdrawal prior to aortocoronary bypass surgery (Reduto et al.), 714
Range gated pulsed Doppler echocardiography for detecting pulmonary outflow tract obstruction in d-transposition of the great vessels, an evaluation of (Areias et al.), 467
Rate and rhythm-induced myocardial O_2 consumption changes before and after coronary occlusion, comparison of (Kralios, Tsagaris, and Kuida), 372
Rats, young vs old male, pathophysiologic changes in myocardial infarction in (Wexler), 70
Reactions to methyldopa, adverse, with particular reference to hypotension (Lawson, Gloss, and Jick), 572
Recourse to a computer for teaching the proper use of nitroglycerin (Rabinowitz, Lown, and Slack), 703 (Letter to Editor)
Reevaluation of intravenous quinidine, a (Woo and Greenblatt), 829 (Annot.)
Refractoriness and conduction of the His-Purkinje system in man, study of the temporal effects on (Reddy et al.), 316
Renal artery, isolated dissecting aneurysm of the (Bakir et al.), 92
vein renin and saralasin testing in renovascular hypertension (MacCarthy and Stokes), 697 (Annot.)
Renin, renal vein, and saralasin testing in renovascular hypertension (MacCarthy and Stokes), 697 (Annot.)
Renovascular hypertension, renal vein renin and saralasin testing in (MarCarthy and Stokes), 697 (Annot.)
Repolarization, prolonged, and hypomagnesemia (Suresh N., and Sainani), 702 (Letter to Editor)
Reproducibility of a consensus panel in the interpretation of coronary angiograms (Sanmarco, Brooks, and Blankenhorn), 430
Resuscitation, selective, towards more (Peatfield), 698 (Annot.)
Retrograde Wenckebach effect in VT (Pordy), 839 (Letter to Editor)
Revascularization, aortocoronary bypass, hemorrhagic myocardial infarction associated with (Lie et al.), 295

Rhythm and rate-induced myocardial O_2 consumption changes before and after coronary occlusion, comparison of (Kralios, Tsagaris, and Kuida), 372
RIA, serum myoglobin tests by (Roberts), 420 (Letter to Editor)
Right bundle branch block in Wolff-Parkinson-White type B, exposure of concealed by pacing from the vicinity of the A-V node (Garcia et al.), 662
Roast Pig Updated, Dissertation on a (Schoenfeld), 134 (Letter to Editor)
Roll over test (Marshall), 132 (Annot.)

S

Saralasin testing and renal vein renin in renovascular hypertension (MacCarthy and Stokes), 697 (Annot.)
Selective resuscitation, towards more (Peatfield), 698 (Annot.)
Sensing the cardiac electrogram (Raber), 275 (Letter to Editor)
Reply (Furman and Hurzeler), 276
Septum, intact ventricular, congenital tricuspid incompetence simulating pulmonary atresia with: a report of two cases (Berman et al.), 655
Sequential atrioventricular pacing with a single bipolar electrode catheter (Wald, Waxman, and Bonet), 828 (Annot.)
Serum myoglobin in acute myocardial infarction: a clinical study and review of the literature (Varki et al.), 680
tests by RIA (Roberts), 420 (Letter to Editor)
Setting the record straight on TAPVC (Lev), 134 (Letter to Editor)
Severity of angina pectoris, spontaneous changes in the (Short and Stowers), 415 (Annot.)
Sick sinus syndrome, effect of verapamil on normal sinoatrial node function and on (Carrasco et al.), 760
Silent or asymptomatic myocardial ischemia (Liss), 838 (Letter to Editor)
Reply (Cohn), 838
Single ventricle and levotransposition of the great arteries, electrophysiologic-histologic correlation of the cardiac specialized conduction system in two cases of (Schatz, Fenoglio, and Krongrad), 235
Sinoatrial node function, normal, and on sick sinus syndrome, effect of verapamil on (Carrasco et al.), 760
Sinus syndrome, sick, effect of verapamil on normal sinoatrial node function and on (Carrasco et al.), 760
Smoking and the causes of CHD (Aravanis), 423 (Letter to Editor)
Reply (Burch), 423
or low-dose heparin—effect of in preventing thromboembolism after myocardial infarction (Emerson), 129 (Annot.)
Spasm, coronary artery—diagnostic and therapeutic implications (Maseri et al.), 554 (Annot.)
Spironolactone (Ochs et al.), 389
Spontaneous changes in the severity of angina pectoris (Short and Stowers), 415 (Annot.)
Standing, amyl nitrite, and isoproterenol before and during acute beta-adrenergic blockade with intravenous propranolol, comparison of heart rate and blood pressure response to (Niarchos, Tahmooressi, and Tarazi), 47
Starr-Edwards aortic and mitral valve prostheses, cloth-covered, complications due to cloth wear in and their management in (Shah et al.), 407
Statistics, marathoning, and CHD (Bassler), 560 (Letter to Editor)
Reply (Milvy), 560
Stellate ganglion, left, and the long Q-T syndrome, another link between the (Crampton), 130 (Annot.)
Stenosis, aortic, calcific, and acute idiopathic pericarditis: unusual fatal disease combination (Wheatley), 87
distinctive echocardiographic pattern of posterior wall endocardial motion in (Sheppard et al.), 9
coronary: ischemic or non-ischemic factor? (Baroldi), 139
Stenosis—continued
mitral, origin of the basal systolic murmurs in. A study with intracardiac phonocardiography (Kambe et al.), 512
Steroids in myocardial disease (Giorgianni), 274 (Letter to Editor)
S-T segment elevation, epicardial, limited correlation of ultrasturcture with: transmural gradients of experimental myocardial ischemia (Lamberti et al.), 496
Stroke, venous thromboembolism after (Warlow), 283
Subannular aortic aneurysm, echocardiographic detection of a (Alter et al.), 525
Sublingual nitroglycerin, arterial hypoxemia following the administration of (Kopman et al.), 444
Surgical versus medical treatment in disease of the left main coronary artery (Graham), 1
Syndrome, Q-T, long, another link between the left stellate ganglion and the (Crampton), 130 (Annot.)
Systolic flutter of the mitral valve (Sze, Nanda, and Gramiak), 157
murmurs, basal, in mitral stenosis, origin of. A study with intracardiac phonocardiography (Kambe et al.), 512
time intervals and circulating catecholamines in normotensive and hypertensive patients with and without left ventricular hypertrophy (Cousineau, Lapointe, and de Champlain), 227

T

Tachycardia(s), A-V reentrant, effects of bundle branch block on experimental (Amat-y-Leon et al.), 62
recurrent ventricular, or fibrillation, long term follow-up of aneurysmectomy for (Sami et al.), 303
ventricular, chest thumping to terminate (Forester), 564 (Letter to Editor)
Reply (Befeler), 564
(VT), retrograde Wenckebach effect in (Pordy), 839 (Letter to Editor)
TAPVC, setting the record straight on (Lev), 134 (Letter to Editor)
Teaching the proper use of nitroglycerin, recourse to a computer for (Rabinowitz, Lown, and Slack), 703 (Letter to Editor)
Teflon felt embolism of coronary arteries after cardiac surgery: a case report (Bedetti, Siewers, and Dunsford), 802
Temperature course in acute myocardial infarction, the (Löfmark, Nordlander, and Orinius), 153
Terminal force, P wave, in presumably healthy middle-aged men, significance of (Forfang and Erikssen), 739
Terminate ventricular tachycardias, chest thumping to (Forester), 564 (Letter to Editor)
Reply (Befeler), 564
Test, roll over (Marshall), 132 (Annot.)
Testing antianginal therapy: in favor of current practice (Shapiro), 701 (Letter to Editor)
treating, and charging, of (Burch), 832 (Annot.)
Tetralogy of Fallot, additional angiocardiograms for (Siassi, Aryampur, and Shakibi), 135 (Letter to Editor)
Therapeutic options, a multiplicity of in complex congenital heart disease (Scott, Chandra, and Roberts), 806
Therapy, current, for infective endocarditis. Part II (Casey and Miller), 263
testing antianginal: in favor of current practice (Shapiro), 701 (Letter to Editor)
Thrombi, mural, left ventricular, occurring in cardiomyopathy, echocardiographic diagnosis of (Kramer et al.), 381
Thrombocythemia, essential, arterial thrombosis in (Hussain et al.), 31
Thromboembolism after myocardial infarction, preventing: effect of low-dose heparin or smoking (Emerson), 129 (Annot.)
after stroke, venous (Warlow), 283
Thrombosis, arterial, in essential thrombocythemia (Hussain et al.), 31

Thrombus, mural, organized left atrial, demonstrated by coronary angiography (Cipriano and Guthaner), 166
Thumping, chest, to terminate ventricular tachycardias (Forester), 564 (Letter to Editor)
Reply (Befeler), 564
Time dependent changes and cycle length in membrane potential, the role of: ouabain-induced Wenckebach conduction block in canine Purkinje fibers (Anderson and Reiser), 781
Towards more selective resuscitation (Peatfield), 698 (Annot.)
Tracings, ECG, early, equality of (Kleyn), 421 (Letter to Editor)
Transducer placement on echocardiographic mitral valve motion, effect of (Markiewicz, London, and Popp), 555 (Annot.)
Transfusions, multiple, left ventricular function in beta-thalassemia and the effect of (Lewis et al.), 636
Transmural gradients of experimental myocardial ischemia: limited correlation of ultrastructure with epicardial S-T segment elevation (Lamberti et al.), 496
Treating, testing, and charging, of (Burch), 832 (Annot.)
Tricuspid incompetence, congenital, simulating pulmonary atresia with intact ventricular septum: a report of two cases (Berman et al.), 655
valve prolapse, occurrence and significance of echocardiographically demonstrated (Werner, Schiller, and Prasquier), 180
Truncus arteriosus in a family (Brunson et al.), 419 (Letter to Editor)

U

Ultrastructure with epicardial S-T segment elevation, limited correlation of: transmural gradients of experimental myocardial ischemia (Lamberti et al.), 496
Unusual complications of coronary bypass surgery (Aintablian et al.), 17
cystic endocardial lesions (Abu Nassar and Flynn), 836 (Letter to Editor)

V

Valve(s), mitral, systolic flutter of the (Sze, Nanda, and Gramiak), 157
motion, mitral, echocardiographic, effect of transducer placement on (Markiewicz, London, and Popp), 555 (Annot.)
porcine heterograft, in the mitral and aortic positions, echocardiographic evaluation of (Harston, Robertson, and Friesinger), 448
prolapse, mitral, ventricular pre-excitation and prolonged Q-T interval syndromes in a patient with (Mirvis and Erwin), 529
syndrome, mitral, and migraine (Litman and Friedman), 610
tricuspid, occurrence and significance of echoardiographically demonstrated (Werner, Schiller, and Prasquier), 180
prostheses, complications due to cloth wear in cloth-covered Starr-Edwards aortic and mitral, and their management (Shah et al.), 407
prosthetic heart, management of anticoagulation during noncardiac operations in patients with. A prospective study (Katholi, Nolan, and McGuire), 163
repair, mitral, for significant mitral insufficiency (Kay et al.), 253
replacement, aortic, intravascular hemolysis in the late course of. Relation to valve type, size, and function (Dale and Myhre), 24
leukocyte function after (Kvarstein and Dale), 624
type, size, and function in relation to intravascular hemolysis in the late course of aortic valve replacement (Dale and Myhre), 24
Vascular and myocardial alterations associated with viral-like nuclear particles in endocardial fibroelastosis (Factor), 791
Vascular—continued
obstruction, primary pulmonary, hazards of cardiac catheterization in children with (Keane, Fyler, and Nadas), 556 (Annot.)
physiology, lessons of diabetic angiopathy in (McMillan), 401
Vectorcardiographic, electrocardiographic and echocardiographic correlation in atrial flutter (Zoneraich et al.), 286
Vein atresia, common pulmonary (Ledbetter, Wells, and Connors), 580
renin, renal, and saralasin testing in renovascular hypertension (MacCarthy and Stokes), 697 (Annot.)
Venous pulse, jugular (JVP) tracings and cannon waves, more on (Tenczer and Littmann), 134 (Letter to Editor)
pumps and congestive heart failure, of the (Burch), 697 (Annot.)
thromboembolism after stroke (Warlow), 283
Ventricle, left, infective aneurysm of the: angiographic and echocardiographic features (Saksena et al.), 384
new echocardiographic index of late diastolic filling of the: the ventricular A wave (Ambrose et al.), 615
Ventricular A wave, the: a new echocardiographic index of late diastolic filling of the left ventricle (Ambrose et al.), 615
aneurysmectomy, left, an evaluation of the results of: use of a simplified method for analysis of the left ventriculogram (Smulyan et al.), 596
angiography, left, lactate production after in coronary artery disease (Visioli et al.), 835 (Letter to Editor)
arrhythmias, exercise-induced or augmented, effect of a new beta-blocking agent, levo-bunolol, on (Shapiro and Park), 417 (Annot.)
contractile performance, the effect of aging on (Urthaler, Walker, and James), 481
function, left, in beta-thalassemia and the effect of multiple transfusions (Lewis et al.), 636
mural thrombi, left, occurring in cardiomyopathy, echocardiographic diagnosis of (Kramer et al.), 381
performance during propranolol withdrawal prior to aortocoronary bypass surgery, radionuclide assessment of (Reduto et al.), 714
pre-excitation and prolonged Q-T interval syndromes in a patient with mitral valve prolapse (Mirvis and Erwin), 529
rhythm during acute coronary occlusion, effects of verapamil on (Fondacaro, Han, and Yoon), 81
septum, intact, congenital tricuspid incompetence simulating pulmonary atresia with: a report of two cases (Berman et al.), 655
tachycardia(s), chest thumping to terminate (Forester), 564 (Letter to Editor)
Reply (Befeler), 564
or fibrillation, recurrent, long term follow-up of aneurysmectomy for (Sami et al.), 303
(VT), retrograde Weneckebach effect in (Pordy), 839 (Letter to Editor)
Ventriculogram, left, use of a simplified method for analysis of the: an evaluation of the results of left ventricular aneurysmectomy (Smulyan et al)., 596
Verapamil on normal sinoatrial node function and on sick sinus syndrome, effect of (Carrasco et al.), 760
on ventricular rhythm during acute coronary occlusion, effects of (Fondacaro, Han, and Yoon), 81
Viral infections, of atherosclerosis in infants and children and (Burch), 558 (Annot.)
-like nuclear particles, myocardial and vascular alterations associated with in endocardial fibroelastosis (Factor), 791
Voltage measurements, ECG, main determinant of (Bennett), 835 (Letter to Editor)
Reply (Toshima and Koga), 835

W

Wave(s), cannon, more on jugular venous pulse (JVP) tracings and (Tenczer and Littmann), 134 (Letter to Editor)
terminal force, P, in presumably healthy middle-aged men, significance of (Forfang and Erikssen), 739
Waveform, diastolic impedance, the O-point and (Lababidi), 277 (Letter to Editor)
Reply (Ramos), 279
exaggerated impedance—a noninvasive assist (Leschin and Schnitzer), 275 (Letter to Editor)
Reply (Ramos), 275
Wenckebach conduction block, ouabain-induced, in canine Purkinje fibers: the role of cycle length and time dependent changes in membrane potential (Anderson and Reiser), 781
Wenckebach—continued
effect, retrograde, in VT (Pordy), 839 (Letter to Editor)
Wolff-Parkinson-White syndrome, Pompe's disease presenting as hypertrophic myocardiopathy with (Bulkley and Hutchins), 246
type B, exposure of concealed right bundle branch block in by pacing from the vicinity of the A-V node (Garcia et al.), 662

Y

Young subjects, hemodynamics of essential hypertension in (Fouad et al.), 646
Youth, Lenegre's disease in (Mathew, Mariano, and Ostrov), 839 (Letter to Editor)
